

User Guide Smart Bracelet  ED131 HR Thanks for choosing our device, please read the user guide carefully before using.	Setting Use VeriFitPro on iOS or Android smart phone to set the wristband as follows. Apple Watch Android & iPhone SuperWearable 1. Download VeriFitPro Search and download VeriFitPro and download "VeriFitPro" from the Apple Store or Android App store. Scan the QR code and download If available, two QR codes will be displayed on the left side of the bracelet. If you scan both, please copy the code and open it through browser. 	2. Product activation and installation The product must be activated by charging before initial use, and then charge for 2 hours to ensure normal power supply. The charging will automatically terminate. Take out Pull open the strap and take out the bracelet body. Charge the battery. Insert the ribbon mounted end of the bracelet body into the USB interface to activate the product by charging the battery to ensure the safety and comply with the required charge and current (200mA). Installation: Mount the bracelet body into the slot of the wrist strap. After use: Adjust the length of the wrist strap until it is appropriate to wear or not. 	3. Touch key Single click the touch key: Remote alarm. Press and hold the touch key: Enter the sub-mode of "Data Reading". 4. Make sure the Bluetooth of smart phone is ON, open app "VeriFitPro" After activating the app, search for the bracelet. Please click the "Add" button to complete connecting. Know your Device 1.
