

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The housing is white plastic. The board is black with various components, including a green terminal block with labels: DC 12V, GND, PUSH GND, PUSH 12V, and NO/NC. The board is labeled "Locally" and "WALTEK". A black ribbon cable is connected to the board. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The board is black with various components, including a green terminal block with labels: DC 12V, GND, PUSH GND, PUSH 12V, and NO/NC. The board is labeled "Locally" and "WALTEK". A black ribbon cable is connected to the board. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters.

Solder Board-Component View 2	 A photograph of a small electronic component, likely a module, resting on a blue textured surface. A black ruler is placed vertically to the left of the component, showing measurements from 10 to 70 mm. The component itself is rectangular with various electronic components visible on its surface, including a central chip and several smaller components. A black rectangular label is attached to the right side of the component.
Antenna View	 A photograph of the same electronic component from a different angle, showing the antenna. A red box highlights the antenna structure, which is a series of parallel lines. A red line points from a text box to this antenna. The text box contains the text "433.97-443.97MHz Antenna". The component is resting on a blue textured surface.
