FCC INQUIRY

1. Is the address of the agent a valid physical US mailing address (not a US post office box, not a virtual mailbox, not P.O. Boxes, not a vacant lot, not a public building, etc.)

The address given on the signed local representative attestation letter is a valid address on the US territory.

2. Is the agent physically located at that valid US address such that the agent can be legally served at that address?

A google maps search showed a physical presence at the address given in the local representative attestation letter

3. Has the listed agent clearly agreed in writing to serve as the agent for the grantee at that address?

A signed local representative attestation letter is part of the application documentation and filed with the FCC (see attachment for a copy)
