March 30, 2005

Dear Application Examiner:

On behalf of Intermec Corporation, Northwest EMC, Inc is submitting this application for the Class II Permissive Change of Intermec's 2610CF transmitter, FCC ID: EHA2610CF. It is an 802.11 b/g radio module. It was granted limited modular approval as a portable device for use in Intermec's handheld computer, Model 700C. There have been no changes to the radio or its antenna. Approval is sought for use in the co-located radio configuration described below.

The 700C can be configured with up to three co-located radio modules (GSM (or CDMA), 802.11b/g and Bluetooth). Please note that the GSM and CDMA radios are never installed in the same 700C. Each radio transmits through its own antenna.

This Class II application demonstrates compliance with FCC requirements while the 2610CF module (FCC ID: EHA2610CF) installed in the 700C is co-located with a CDMA radio module (FCC ID: EHAEM3420) or a GSM/GPRS radio module (FCC ID: EHASMC46), and a Bluetooth radio module (FCC ID: EHABTS080).

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247, and 2.1093.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

A handwritten signature in blue ink, appearing to read "G. Kiemel", with a stylized flourish at the end.

Greg Kiemel, Director of Engineering  
Northwest EMC, Inc.
