WARNING THE EPILEPSY

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. To reduce the risk of such a seizure incident, it is recommended to take a 10-15 minute break at each hour of playing.

FEATURES

- 2.4 GHz wireless Giant Joystick
- Includes HDMI and USB* cables
- Up to 25 ft. (7.6m) gaming range.

SETTING UP GAME CONSOLE

1. Connect HDMI cable to TV and Game Console. (make sure the devices are OFF).
 2. Connect Micro USB cable (Included) to USB power supply to power ON the game console.
 3. Press Power Button on top of Game Console to power ON. The power indicator light on top of Game Console will light up RED and then TV will enter the game.
- NOTE: Make sure your TV is on the correct HDMI auxiliary input.

NOTE:

- On the wireless mode, Giant Joystick goes to Sleep mode after 3 minutes of inactivity (the red LED on the Giant Joystick will go OFF, Press Left or Right Action button to wake up the Giant Joystick)
- When you switch to Wireless Connection and connected Micro USB cable to Giant Joystick, USB Power Connection mode is priority.
- If battery voltage is insufficient (lower than 2.4V), the red LED on the Giant Joystick will flash slowly to prompt the battery need to be replaced.
- Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

FCC STATEMENT

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

CONNECTING YOUR CONTROLLER

YOU CAN CONNECT YOUR GIANT JOYSTICK TO THE GAME CONSOLE 2 WAYS! (WIRELESS / USB POWER CONNECTION)

WIRELESS CONNECTION

1. Make sure the power of Giant Joystick is OFF.
2. Insert two 1.5V AA batteries into the battery compartment.
3. Turn ON the power switch on the Game Console, Giant Joystick and TV (indicator light on Game Console & Giant Joystick will light up RED).
4. Use Giant Joystick to select game and press "A" button to enter the game you selected, then you can see the game controls.
5. Hold "Player 1" button for 5 seconds to return to main menu and hold "Player 2" button for 5 seconds to reset the game.

For the second Giant Joystick connection:

1. Make sure the first Giant Joystick is ON and the power of the second Giant Joystick is OFF.
2. Insert two 1.5V AA batteries into the battery compartment.
3. Hold "Player 1" and "A" buttons at the same time then turn ON the power switch of second Giant Joystick (indicator light will light up flashing RED), then turn OFF the first Giant Joystick.
4. Once the second Giant Joystick connected successfully, indicator light will light up RED, then turn ON the first Giant Joystick.

USB POWER CONNECTION

1. Slide power switch to OFF position.
2. Use Micro USB cable (not included) to connect Giant Joystick to the Game Console. If the red light on Giant Joystick is always ON, the connection is successful.
3. Use Giant Joystick to select game and press "A" button to enter the game you selected, then you can see the game controls.
4. Hold "Player 1" button for 5 seconds to return to main menu and hold "Player 2" button for 5 seconds to reset the game.

For the second Giant Joystick connection:

1. Make sure the second Giant Joystick has been connected successfully wirelessly.
2. Slide power switch to OFF position.
3. Use Micro USB cable (not included) to connect second Giant Joystick to the game console. If the red light on second Giant Joystick is always ON, the connection is successfully.

NOTE:

Turn the Giant Joystick power switch to the left if you use wired connection. Turn to the right if you use wireless connection.
