

Pan/Tilt/Zoom Camera

Model
XX21A

- Built-in 310 MHz Receiver to work with CR15A Remote (sold separately).
- CR15A Remote lets you Pan the camera from side to side, Tilt it up and down, and Zoom in remotely.
- Can be turned on and off remotely (remote controlled power supply included).
- Use it outdoors to monitor your front door, back yard, or indoors to monitor a child's bedroom, etc.

The XX21A includes the XC21A Pan/Tilt/Zoom Camera and XM15A remote controlled power supply. You can remotely control the camera's position, etc., using a CR15A remote control (sold separately). The camera sends the picture and sound to a receiver that you connect to your TV, up to 100 ft. away. (Receivers and Remote Controls sold separately).

1. Refer to the setup and operating instructions that came with the Video Receiver, (VR31A or VR36A) and CR15A remote control (all sold separately)..
2. Install the camera in a suitable location. If you install it outdoors, run the jack through a hole in the wall, or through a window, so you can plug the power supply into an AC outlet indoors.
3. Plug the XM15A power supply's jack into the cable on the Pan/Tilt/Zoom camera.
4. Set the Housecode dial to a letter between A and P that matches the Housecode dial on the X10 remote controls you want to use it with. Set the Unit Code dial to a number between 1 and 4. This lets you turn the camera connected to the XM15A on and off by remote control, using the CR15A remote.
5. Plug the power supply into any 120V AC outlet.
6. Set the channel switch on the camera to the same setting as the one on the VR31A or VR36A Video Receiver (A, B, C, or D).
7. Adjust the antenna if necessary to aim it in the direction of the TV that you will view the camera on.

See CR15A remote control's instructions for Pan 'n Tilt, and zoom operation.

F.C.C. CAUTION - THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRE OPERATION.

NOTE: NO CHANGES OR MODIFICATIONS MAY BE MADE TO THE UNITS. ANY CHANGES MADE TO THE UNITS WILL VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.
