

The back of the device is black and features a large rectangular battery compartment. The compartment is open, revealing a red battery and a black PCB. The PCB has a QR code, a gold-colored connector, and various regulatory markings including FCC ID, CE, UKCA, and a warning symbol. The battery is labeled '11x11' and 'LQC Code'. The device has a textured, rugged appearance with several circular holes for screws or ventilation.

The back of the SECBOX V2 control unit is black with a textured surface. It features a central label with the text "Control iD" and "SECBOX V2" in a bold, sans-serif font. To the right of the text is a square QR code. Below the text and QR code is the alphanumeric code "0H0100/027F18". To the right of the label, the text "12V/GND" is printed vertically. At the bottom of the unit, there are two warning symbols: a triangle with an exclamation mark and a square with an open book icon. Below these symbols is the word "Aux". The unit is secured with four screws at the corners and has a small rectangular slot at the top center.
