

1
Foldable wireless charging holder

3-IN-1

INPUT
 USB: 5V = 5A, 9V = 3A, TVS = 2A
 Support iPhone 12 and above fast charging, support up to 5W / 10W / 15W

OUTPUT
 Support AirPods pro with magnetic battery case, support up to 5W
 Support iPhone 12 and above fast charging, support up to 5W

The diagram shows a three-step process for attaching a smartphone to the mount. Step 1 shows the phone being inserted into the open mount. Step 2 shows the mount closing around the phone, with labels for '160° max' and '80° max' indicating the range of motion. Step 3 shows the final adjusted position of the phone in the mount, labeled 'FINAL'.

There are 2 ways to try

WATCH CASE

Remove the watch case

Having finger in charging bucket (X)

Having iron sheets (X)

Having cards (X)

⚡️ Unable to charge or slow charging

Experience innovation for
work, play, and travel.

Since 2013, ISEN designs tech accessories. We specialize in the conception, manufacturing and distribution of 3C and mobile phone accessories products tailored

- Radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause harmful interference to other electronic equipment.
- There is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation with part 15 is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

- 01** Por favor, úntelo, júntelo con un móvil con iPhone o MagSafe o un móvil de versión iPhone o MagSafe.
- 02** Los accesorios inalámbricos (faja de mano, aurillo, sujetador) o la tarjeta de crédito no pueden interferir en la carga de energía. Puede activar la detección de cosa extraña en compañía de la interrupción de la carga de energía.
- 03** Durante la carga de energía, la contemplación de videos o la ejecución de música con el móvil puede afectar la velocidad de la carga de energía. En caso de utilizar jugador o cosas adicionales, el consumo eléctrico puede ser mayor que la velocidad de la carga de energía.
- 04** En el proceso de carga de energía, un nivel excesivo de calor en el calentamiento grave, por favor pongase en contacto con la dirección de correo electrónico.

- 01-** Si prega di utilizzare con la Cassa Magasin e telefoni cellulari (iPhone 12 e superiori).
- 02-** Accettori metallici (passare di ferro, lobbie e altri) possono essere utilizzati con la Cassa Magasin. La cassa contenente metallo attiverà il rilevamento di oggetti estranei ed interromperà la ricarica.
- 03-** Utilizzare il telefono cellulare per guardare i video o ascoltare la musica può ridurre la velocità di ricarica. Quando si utilizzano applicazioni come i giochi, il consumo energetico può essere superiore alla velocità di ricarica.
- 04-** Durante il processo di ricarica, il pannello si riscaldamento è un fenomeno normale. Si prega di non toccare il pannello con la nostra energia intelligente.

- 01-** Vérifiez l'état de la batterie. Si elle est faible, rechargez-la. Si elle est morte, remplacez-la. Si elle est défectueuse, remplacez-la.
- 02-** Les accessoires installés (télé de fax, ordinateur, etc.) peuvent interférer avec le signal de votre téléphone. Essayez de les débrancher.
- 03-** L'utilisation de votre téléphone pour regarder des vidéos ou écouter de la musique pendant la charge affectera le temps de charge.
- 04-** Pendant le processus de charge, la charge peut être interrompue temporairement. Si cela se produit, essayez de recharger le téléphone.

- 01-** Please use it with phones such as Nagase phone case or Iphone 12 or above.
- 02-** Metal accessories (iron sheets and finger ring) may affect the magnetic field, affecting the charging process. Therefore, the metal will trigger foreign object testing, and discontinue charging.
- 03-** Watching videos or listening to concerts with your mobile phone in the charging process will obviously affect the charging speed. If the phone is used for a long time, power consumption may be higher than the charging speed.
- 04-** In the charging process, slight heating is a normal case. If you encounter severe heating, please contact our customer service.

02. Metal accessories (iron sheets and finger ring buckles) or credits cards will interfere with charging. The housing containing metal will trigger foreign object testing, and discontinue charging.

03- Watching videos or listening to concerts with your mobile phone in the charging process will obviously affect the charging speed. While applications such as player are used, power consumption may be higher than the charging speed.

04- In the charging process, slight heating is a normal case. If you encounter severe heating, please contact our customer service.

]- Bitte verwenden Sie das Produkt mit einem Handy mit einer Magsafe-Hülle oder iPhone12 und höher

2- Metallisches Zubehör (Bügeleisen, Reißzwecken) oder Kreditkarten können den Ladevorgang stören. Metallhaltige Hüllen werden als Fremdkörper erkannt und unterbrechen den Ladevorgang.

3- Wird das Mobiltelefon während des Ladevorgangs zum Ansehen von Videos oder zum Hören von Musik verwendet, wird die Ladegeschwindigkeit erheblich beeinträchtigt. Bei Anwendungen wie z. B. Playern kann der Stromverbrauch

höher sein als die Ladegeschwindigkeit.
