## Milano Wireless Charger with Light-up Ring

### The diagram of installation

- ① Connector for power supply
- ② Charging area
- ③ Indicator Light area
- ④ Instruction sheet

### Wireless charger's charging instructions:

1. Connect the wireless charging pad to a power source via the included micro USB cable. The charging pad will enter standby mode indicated by one quick blue light flash.
2. Place your portable device on the center area of the charging pad. Charging begins when the blue color indicator lights on.

### Product specs:

Product model: AB0004

Main functions: wireless charging transmitter;

Standard version: WPC - 1.1;

Charging type: one-on-one charge corresponding area;

Input: DC 5V/1A;

Output: 5V/0.7A;

Effective Distance: 2 MM;

Conversion efficiency:  $\geq 70\%$ ;

Charging methods: induction model;

Working frequency: 112-205kHz;

Accessories: USB cable; Wireless charging pad;

Packing box, and instruction sheet.

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules.

Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
