

RF Remote Controller

09.283K5.04205

Important: Read All Instructions Prior to Installation

Function introduction

Note: Before the first use, please remove the protective film on the battery.

Back side

Product Data

Output	RF signal
Operation Frequency	915MHz
Power Supply	3V(1xCR2025 battery)
Operating temperature	0-40°C
Relative humidity	8% to 80%
Dimensions	136.3x38.9x10.7mm

- Control 5 zones of receivers separately
- Single color controller
- Compatible with all universal series RF receivers
- 1 receiver can be paired by max 8 different remote controls.
- Waterproof grade: IP20

Safety & Warnings

- This device contains a button lithium battery that shall be stored and disposed properly.
- DO NOT expose the device to moisture.

Operation

1. Pair with RF receivers:

Click "Learning Key" on RF receiver, or re-power on the receiver three times → Click ^{ON} * or ^{OFF} * button of any zone on RF remote → LED lights connected with the receiver flicker once → The receiver is paired to the zone successfully.

2. How to delete the pairing:

Press and hold down "Learning Key" on the receiver for over 3 seconds until connected LED lights flicker twice, which means the pairing is deleted successfully.

If you use multiple receivers, you have two choices:

Option 1: have all the receivers in the same zone, like zone 1

Option 2: have each receiver in a different zone, like zone 1, 2, 3 or 4

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
