 No programming is required to add new devices to your Z-wave network.

**3. No programming**  
 No programming is required to add new devices to your Z-wave network.

**ADDING YOUR DEVICE TO A Z-WAVE NETWORK**

1. Turn on the power to your device and wait for the device to start.
2. Press the "Add" button on the device for 10 seconds.
3. Press the "Add" button on the Z-wave controller for 10 seconds.
4. Press the "Add" button on the Z-wave controller for 10 seconds.
5. Press the "Add" button on the Z-wave controller for 10 seconds.

Install the included screws in the desired position using 1/8" x 1" screws. Make sure to get the screws in close with the corner flange to the door. We recommend using the screws in close to the corner flange to prevent the door from being dislodged.

The manual/program button on the main unit allows the user to:

- 1. Manually turn ON/OFF the connected device.
- 2. Add/remove the main unit set from the network.

**Warning:** Do not use the remote control with other than the intended device.
