#### Safety Tips

- 2. Liquid or foreign material penetration into the earphone may internally damage the earphone and lead to malfunctions. These damages are not covered under the standard warranty.
- 3. Avoid keeping earphone near the eyes of children or animals.
- 4. To avoid choking, do not swallow any of the parts of this product. The earphone is not suitable for children under 3 years of age.
- 5. Do not use the earphone during thunderstorms as it can lead to malfunctions and an increased risk of electric shocks.
- 6. To avoid battery-drainage, switch off the earphone when not in use.
- 7. Do not place the earphone in an environment where the temperature is too high or too low (above 45°C or below -20°C).

1. To protect your hearing, continuous and prolonged usage and usage with high volume are not recommended. Give your ears a break from the earphone when you have used it for more than an hour.
2. While using the earphone, avoid knocking, twisting, bending or pulling the cable violently, to keep them intact.
3. To avoid damages to internal components, avoid knocking, bumping, or squeezing or twisting of the earphone as it is a precision electro-acoustic device.
4. Silicone ear caps should be cleaned regularly (with a mild disinfectant and before being) to avoid ear discharge and ear pain.
5. The microphone hole located on the line control and earphone's mesh or filters should be cleaned regularly and wipe to avoid blockage due to foreign matter.
6. To safeguard your security and avoid accidents, do not use the earphone while you are driving, cycling or while crossing the roads.

Disassembling or squeezing of battery, charging with high input current or voltage, usage of higher wattage than recommended or exposure to extreme heat can cause a lot of damage to the built-in lithium ion battery.  
To avoid any explosion, do not expose the product to high temperatures or strong sunlight. Stop using the smartphone if there is any deformation or swelling or bulging in the battery area of earphone and contact the Service provider.  
Dispose the battery as per local laws, rules and e-waste regulations.  
Do not treat it as household waste.

1. The product is entitled to warranty service for a specific duration from the date of receipt or delivery or first use of the product. Please refer to the warranty policy on the official website as per the country of purchase.

2. For your after-sales rights and interests, please keep the product and accessories intact, keep the documents complete, provide relevant information and cooperate with the OEM or its service partners for failure analysis.

- Order number
- Invoice
- Warranty certificate.

## Takuukäytäntö

1. Tuotteella on oikeus takuuvaihtoon tietyn ajan kuluessa vastaotto- tai toimituspäivästä tai tuotteen ensikäytöstä. Lue takuukäyttöohje valitessasi sivustolta ostamaan tuotteella.
2. Takuukäytössä ja -inressen takia pidä tuote ja sen lisävarusteet ehjinä, säilytä kaikki asiakirjat, toimitusohjeet ja tee yhteistyötä laitevalmistajan tai sen huoltokumppanien kanssa vika-analyysissä.
- Takuunumero
  - Lasku
  - Takuutodistus.

The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

It has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. The SAR limit adopted by the FCC is 1.6W/kg averaged over one gram of tissue. The highest SAR value reported to the FCC for this device type complies with this limit.

**IC Statement:**

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

 To prevent possible hearing damage, do not listen at high volume levels for long periods.

The crossed-out wheeled bin symbol on your product, battery, literature or packaging indicates that the product and its electronic accessories should not be disposed of with household waste. To safely recycle your device, please use local return and collection systems or contact the retailer where the device was originally purchased.

Maximum radio-frequency power transmitted in the frequency bands in which the radio equipment

operates:  
The maximum power for all bands is less than the highest limit value specified in the related Harmonized standard.  
The frequency bands and transmitting power (radiated and/or conducted) nominal limits applicable to the radio equipment are as follows:  
Bluetooth (2402-2480MHz); <10dBm

The products manufactured by OnePlus comply with the E-waste Rules 2016 and its amendments. Considering the exemption listed in SCHEDULE II of the E-waste Rules, the content of hazardous substances is as follows:

- 1. Lead (Pb) – not over 0.1% by weight;
- 2. Cadmium (Cd) – not over 0.01% by weight;
- 3. Mercury (Hg) – not over 0.1% by weight;
- 4. Hexavalent chromium (Cr6+) – not over 0.1% by weight;
- 5. Polybrominated biphenyls (PBBs) – not over 0.1% by weight;
- 6. Polybrominated diphenyl ethers (PBDEs) – not over 0.1% by weight.

 For the purpose of recycling and reducing the effect of the environment, the Electrical & Electronic Equipment should not be disposed of with other household waste, please separate these items from other types of waste and recycle them to the authorized e-waste company. As a part of E-waste recycling initiative, OnePlus has partnered with an authorized

E-waste companies named AS Attoro and Exigo. You can contact AS Attoro or Exigo to recycle your E-waste product. For further information about the OnePlus E-waste partner named AS Attoro and Exigo, you can contact at:
