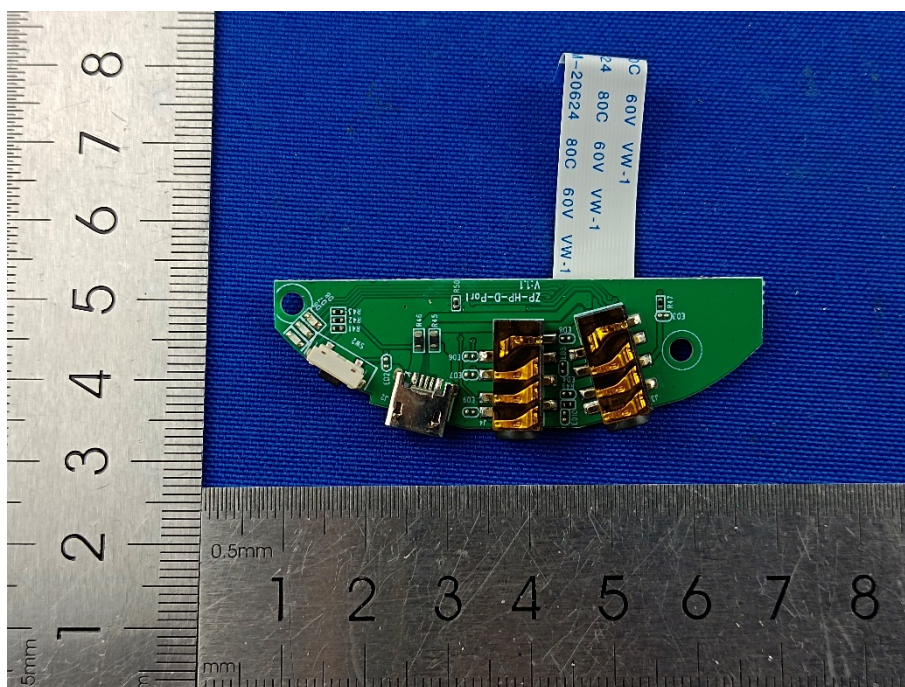

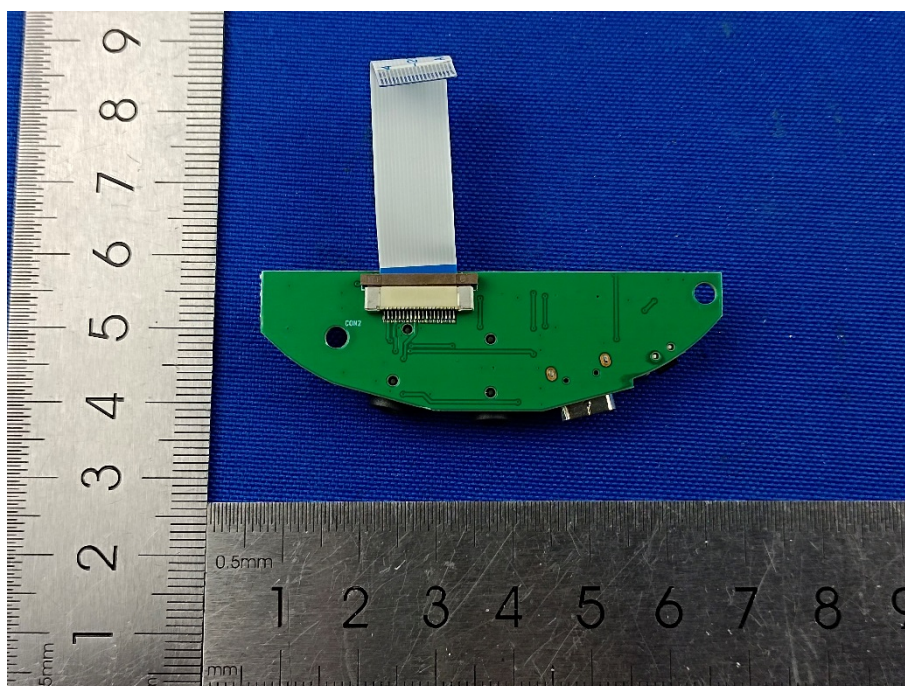

Photo 8

A photograph of a custom green PCB, labeled 'B Mainboard', with various electronic components and a ruler for scale. The board is populated with numerous integrated circuits, resistors, capacitors, and LEDs. A ruler is placed horizontally below the board, showing measurements in millimeters (0 to 10 mm) and centimeters (1 to 10 cm). The board has a complex layout with many surface-mount components and a large central chip. The text 'B Mainboard' is printed on the right side of the board.
