Timco Engineering Inc.  
849 NW State Road 45  
Newberry, FL 32669

Applicant: Mikrotiks SIA  
Brivibas gatve 214i  
Riga, Latvia LV-1039

Model: RBLtAP-2HnD&R11e-LTE6

FCC ID: TV7LTAP2HND

To Whom It May Concern:

The form 731 and request for Class 2 Permissible Change has been electronically submitted and attachments uploaded to your web site for use in processing. The original Grant contained note restricting co-location with another transmitter.

Specifically, the original Grant contains the following Note

"Output power listed is conducted. This product is capable of 2x2 MIMO operating and supports 20 MHz and 40 MHz bandwidth modes. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons **and must not be co-located or operating in conjunction with any other antenna or transmitter.** Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance".

This application is requested the Grant note (highlighted portion) be revised as the unit has demonstrated compliance with regulations with an authorized module incorporated (module FCC ID: TV7R11ELT6L). Please review the submitted information and process change to update the Grant note.

Should you require any further information, please contact the undersigned. Thank you for your consideration in this matter.

Sincerely,

Scot Rogers
