Re: Request for Confidentiality.

We request that the enclosed design documents of our MHX-920 product (FCC ID NS901P5), specifically our *schematics and bill of materials*, be held confidential. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of the competition. This new technology gives our company a competitive advantage. Our efforts could be quickly undermined if the design information were to be made public.

Thank you in advance.

Hany H. Shenouda

President
