# **Music Hand Shower**

# Product components

Thanks for choosing our Xiaomu Sanitary series product. It is a handheld shower excluding other accessories such as inlet pipe. For the specific product style, please refer to the product you purchase (as shown below)

# Shower description

#### Matters needing attention

1. After the shower is installed, turn on the water inlet switch. It is generally recommended that the normal operating temperature is less than or equal to 42°C, the water pressure is 0.1 to 0.3MPa; and the ultimate operating temperature is less than or equal to ≤70°C, and the water pressure is 0.05 to 0.5MPa.

2. It is recommended that the installation location of the product should not be less than 1 meter away from the installation location of bath heater (bathroom heating appliance) so as to avoid the high temperature scald of product caused by the bath heater.

3. To make the product beautiful and ensure the service life of the product, please wipe the stain (if any) with fine cotton cloth with neutral detergent in time.

4. In order to achieve the ideal use effect, a flat rubber gasket seal shall be inserted in the hose joint when installing the handheld shower (figure 1)

5. The operating temperature shall be above 0°C. If the temperature is not higher than 0°C (or in freezing weather), the shower deformation, frost cracking and other phenomena may occur. To prevent deformation and freezing, please empty the residual water in the shower. (figure 2)

## Troubleshooting

During use, pay attention to the water outlet effect in different function modes. Debris will block the water outlet after long term use, resulting in irregular and intermittent water discharge. Gently push the rubber nozzle to wash out the debris automatically before normal use. And do not forget that the filter rubber mat at the inlet joint of hose shall be cleaned regularly. If the outlet nozzle is blocked during use and the Pause button is invalid, immerse the product in white vinegar for 24 hours, and then clean it before use. Pause button Daily maintenance: use the product at least once a week. If it is not used for a long time, to avoid the effect of scale, switch for several times quickly before use.

### Other functions

The loudspeaker will be turned off automatically in case of no loudspeaker operation, no connection or no audio input within 5 minutes after power on.

#### Matters needing attention

1. In order to ensure the safety of the battery, please charge in the temperature range of 0 °C ~ 45 °C. Charging beyond the temperature range will turn off the charging function, and red light slow flashing prompt will be given. 2. In order to ensure the safety of the loudspeaker, the starting temperature range of the loudspeaker is -15°C to 55°C. If the loudspeaker is started in an environment beyond the temperature range, the system will automatically trigger protective shutdown or cannot be turned on, and red light slow flashing prompt will be given.

3. Please use a power adapter that is CCC certified and meets the standard requirements for charging.

4. The loudspeaker is IPX7 deep waterproof and can be used freely in water

shower, However, avoid product damage due to immersion. 5. When using the microphone, please do not block the microphone receiver

and avoid self-excited vibration that may affect the use experience. 6.Do not use the charger in wet places.

7.To avoid damage, do not fall, violently shake or squeeze the product. 8.Before first use, it is recommended that the battery be fully charged. In case of incomplete charging or failure in charging, please disconnect the power adapter from the loudspeaker and unplug the power adapter from the

#### power outlet.

9.Do not try to disassemble this product. Non-professionals may damage

## Warning

1.If the battery is not replaced properly, there will be a risk of explosion. Only replace existing batteries with those of the same model. Batteries in the product are not removable. To replace them, please contact the after-sales service department of Xiaomu. 2. Please do not throw the old battery into the domestic waste for disposal.

Improper disposal of batteries will cause the battery to catch fire and explode. Please comply with local regulations to deal with this equipment, batteries and other accessories.

3.Do not place the equipment and its batteries in high temperatures or around any heating equipment, such as sunshine, microwave ovens, heaters ovens etc. Overheating of the batteries may cause explosion 4.It is forbidden to disassemble, hit, squeeze or throw the batteries into fire. Do not continue to use any seriously bulging battery.

Do not short-connect the metal contacts of the battery. Otherwise, it may lead to the danger of short circuit and result in personal injuries such as burns and burns caused by overheating of the batteries

• Do not disassemble, collide or squeeze the battery to avoid leakage, overheating and explosion;

 Do not throw the battery into fire, or it will cause fire or explosion; Do not continue to use any seriously bulging battery.

## The name and content of harmful substances in the product

	Harmful substance					
Part	Lead (Pb)	Mercury (Hg)	Hexavalent chromium (Cr(VI))	Cadmium (Cd)	Polybrominated biphenyl (PBB)	Polybromina diphenyl et (PBDE)
Plastic shell	0	0	0	0	0	0
Metal shell	0	0	0	0	0	0
Circuit board	х	0	0	0	0	0
Microphone	0	0	0	0	0	0
Battery	х	x	0	0	0	0

is form is compiled in accordance with the regulations of SJ/T11364.

Indicates that the content of the harmful substance in all homogeneous materials of e part is below the limit specified in GB/T 26572. x indicates that the content of the harmful substance in at least one of the homogeneous materials of the part exceeds the limit specified in GB/T 26572.

## FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
