-Please turn off Bluetooth when charging, suggest don't use Bluetooth speaker before the battery fully charged.

Parameter specification

Product model: BT-10

Bluetooth version : Bluetooth 4.0

Support Bluetooth protocol : HSP, HFP, A2DP, profile

Effective wireless distance: ≤10 (different for environmental factors the connection to the Bluetooth devices)

Frequency range : 2.4G - 2.480GHZ

Transmitted power : 4dB

Receive sensitivity : -90dBm

Output power : 2W*2

Db: 2.75dB

USB charging voltage: DC 5V

Battery : the lithium battery 1000mAh

Operating voltage : 3.7V

Play duration: 10h (60% percent of the volume)

Product specification : 200X80X42mm

Audio input : Bluetooth/LINE-IN

Weight: 313g

Packaging components

- a X1 PC speaker
- a 3.5 audio line
- a USB power line
- a Specification
- a Packing box

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and,

(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
