

iHome

Model: IBT820

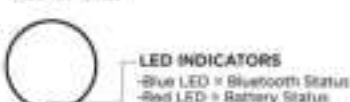

PLAYGLOW+

Waterproof Portable Speaker

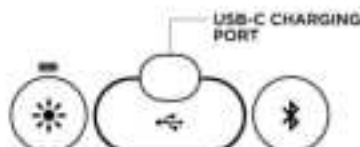

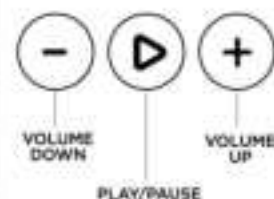

BOTTOM OF UNIT

TOP OF UNIT

CONTROLS OVERVIEW

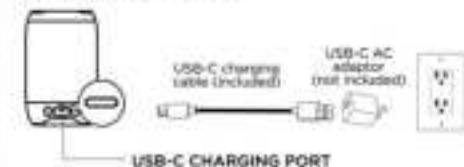

COLOR MODES/BATTERY LEVEL

-Press repeatedly to cycle through different color modes, including OFF
-Press and hold to check battery level status

BLUETOOTH PAIRING

-Press & hold to enter pairing mode
-Select "iHome IBT820" on your device to pair
-To cancel pairing, press Bluetooth Button again

CHARGING THE SPEAKER

CHARGE UNIT BEFORE USE ABOUT 4 HOURS

LED STATUS INDICATORS

BATTERY STATUS

	RED	charging (slow flash)
	OFF	fully charged
	RED	low battery (fast flash)

BLUETOOTH STATUS

	BLUE	pairing (flashing)
	BLUE	connected to Bluetooth

FCC Information

This equipment complies with FCC RF radiation exposure limits set forth for an unrestricted environment.
The device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
• Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
• NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses, and can radiate radio frequency energy and it may interfere with other equipment if not installed and used in accordance with the instructions. If you are having trouble with interference, you may want to consult the manufacturer's instructions.
However, there is no guarantee that interference will not occur in specific situations. If this equipment does cause harmful interference to you or others, you may need to take one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Turn off the equipment temporarily to see if the problem disappears. Note that to stop the product from operating, you must turn the power off at the main power switch.
• Consult the dealer or an experienced radio/TV technician for help.

ESD Statement

This equipment complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
This device complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
The device complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
(3) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(4) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(5) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(6) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(7) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(8) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(9) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(10) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(11) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(12) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(13) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(14) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(15) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(16) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(17) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(18) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(19) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(20) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(21) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(22) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(23) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(24) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(25) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(26) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(27) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(28) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(29) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(30) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(31) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(32) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(33) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(34) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(35) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(36) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(37) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(38) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(39) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(40) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(41) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(42) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(43) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(44) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(45) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(46) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(47) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(48) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(49) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(50) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(51) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(52) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(53) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(54) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(55) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(56) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(57) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(58) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(59) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(60) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(61) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(62) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(63) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(64) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(65) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(66) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(67) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(68) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(69) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(70) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(71) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(72) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(73) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(74) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(75) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(76) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(77) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(78) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(79) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(80) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(81) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(82) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(83) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(84) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(85) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(86) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(87) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(88) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(89) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(90) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(91) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(92) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(93) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(94) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(95) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(96) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(97) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(98) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(99) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.
(100) All equipment that complies with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage must also comply with IEC 60950-1 (EN 60950-1) for protection against electrostatic discharge (ESD) damage.

CAUTIONS (R) / MISE EN GARDE

Do NOT attempt to charge the battery. Doing so will void the warranty and could cause personal injury and damage to your device.
To dispose of the unit, follow the instructions below:
• Never dispose of used batteries/electronics with ordinary solid wastes, since they may contain toxic substances.
• Dispose of used batteries/electronics in accordance with the applicable regulatory requirements.
• Many electronic wastes may require batteries and other electronic components to be recycled. To find a drop-off location near you, visit www.ecycle.org.

GENERAL BATTERY PRECAUTIONS

• Never use or charge a battery if it appears to be leaking, discolored, deformed, or in any way abnormal.
• Never expose the unit or attempt to remove battery as that could cause damage or require solution of other electronic substances.
• Avoid charging or recharging battery when the temperature is not within 0°C - 35°C (32°F - 95°F) Fahrenheit.
• Never expose a battery to any liquid.
• Never expose a battery to excessive heat such as direct sunlight or fire. Never use a battery pack or an unapproved device or any excessive charging temperature may be introduced.
• Always keep batteries out of the reach of infants and small children.

IMPORTANT SAFETY INSTRUCTIONS

Please read all warnings, read and follow all instructions and keep these instructions handy for future reference.
1. Do not charge this product near a water source, and clean only with dry cloth.
2. Do not touch any ventilation openings. Heat in accordance with the manufacturer's instructions.
3. When - This product should be shielded away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.
4. Only use attachments/accessories specified by the manufacturer.
5. Using this product during lightning storms or when exposed for long periods of time.
6. Damage Requiring Service - This product should be serviced by qualified service personnel when:
- Plug has been damaged.
- Objects have fallen into or liquid has been spilled into the enclosure.
- The unit has been dropped or the enclosure damaged.
- The unit exhibits a marked change in performance or does not operate normally.
7. To avoid fire hazard, such as lighted candles, should be placed on this product.
8. Attention should be drawn to the environmental aspects of factory disposal.
9. The product is suitable for use in indoor and/or outdoor environments.
10. Maintenance: To reduce the risk of fire or electric shock, this device should never be left unattended when charged in and charging. Recharging the internal battery shall only be conducted by an adult. Always charge the device on a non-flammable surface and keep away from flammable materials.
11. Do not disassemble or attempt to repair the device.
12. If the unit is to be stored for an extended period of time, such as a month or longer, charge the unit fully before storage.
13. Always use a UL/CUL certified charging adapter (not included) and the supplied USB charging cable.
