User Guide

<div><div>What's in the box</div><div><div></div><div>Smart Car Charger</div></div><div><div></div><div>User guide</div></div></div>	<div><div>About your Smart Car Charger</div><div><p>Your Smart Car Charger fits in a standard 12V vehicle power outlet and powers up to 2 USB devices (cables not included).</p></div></div>	<div><div>Download the app</div><div><div><div>1. Open your smartphone's App Store (iOS devices) or Google Play Store (Android).</div><div><div></div><div>App Store</div></div><div><div></div><div>Google Play</div></div></div><div><div>2. Search for "PM Auto Locator" and install the "Auto Locator" app.</div><div><div></div><div>Auto Locator</div></div></div><div><div>3. Your smartphone's Bluetooth must be enabled, if not go to the smartphone's settings to enable it before continuing to the next step.</div><div><div><div>i</div><div>The Auto Locator app requires a smartphone with Bluetooth 4.0 or newer.</div></div></div></div></div></div>
<div><div>Setting up the Auto locator app</div><div><div><div>1. To setup the Auto Locator app, make sure that the Smart Car Charger is plugged in, and your vehicle is powered on (a green indicator light will glow when the Smart Car Charger is powered).</div><div></div></div><div><div>2. Open the Auto Locator app on your smartphone. The app will automatically find and connect to the Smart Car Charger; if not, simply tap "Connect to Auto Locator" on the app screen and you're all set.</div></div></div></div>	<div><div>Finding your car</div><div><div><p>You may now leave the app and return to the home screen and use your other apps.</p><p>When you turn off the ignition and leave the vicinity of the vehicle, the app will automatically detect and record the parking location. There's also a helpful option to set a parking reminder to alert you after the specified time period has elapsed.</p><div><div>i</div><div>In order for the Auto Locator app to function properly it is important that you do not close it in your smartphone's multitasking switcher and to simply leave it backgrounded. If you restart your smartphone you will need to reopen the Auto Locator app briefly for it to continue functioning.</div></div></div></div></div>	<div><div>Warranty & Legal information</div><div><div><p>This product as supplied and distributed new by Southern Telecom, Inc. to the original consumer purchaser is warranted against defects in material and workmanship for a period of 90 Days from your date of purchase ("Warranty"). Warning Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To comply with FCC RF exposure compliance requirements, this grant is applicable to only mobile configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
