

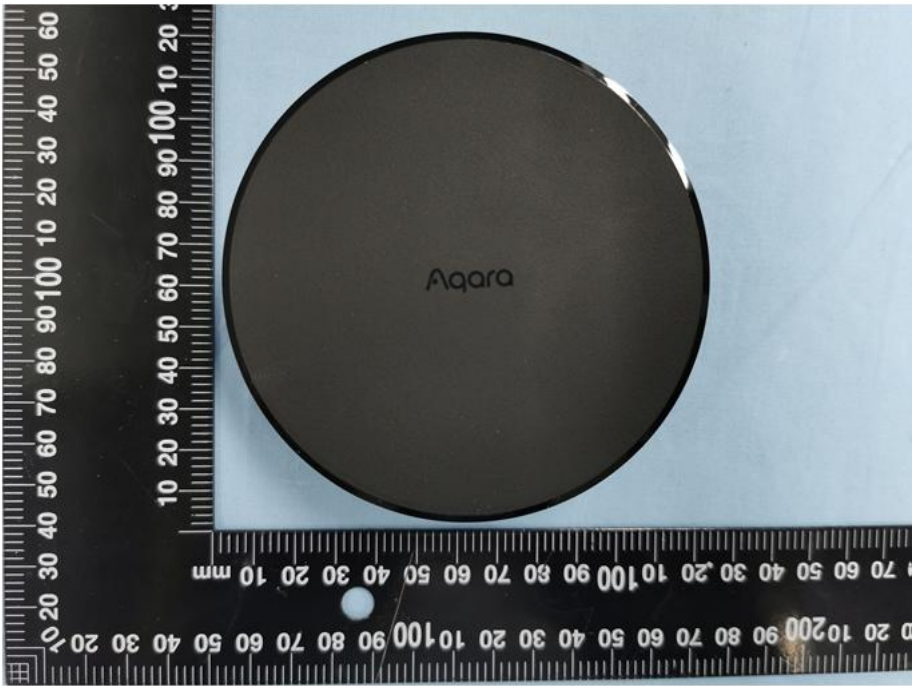

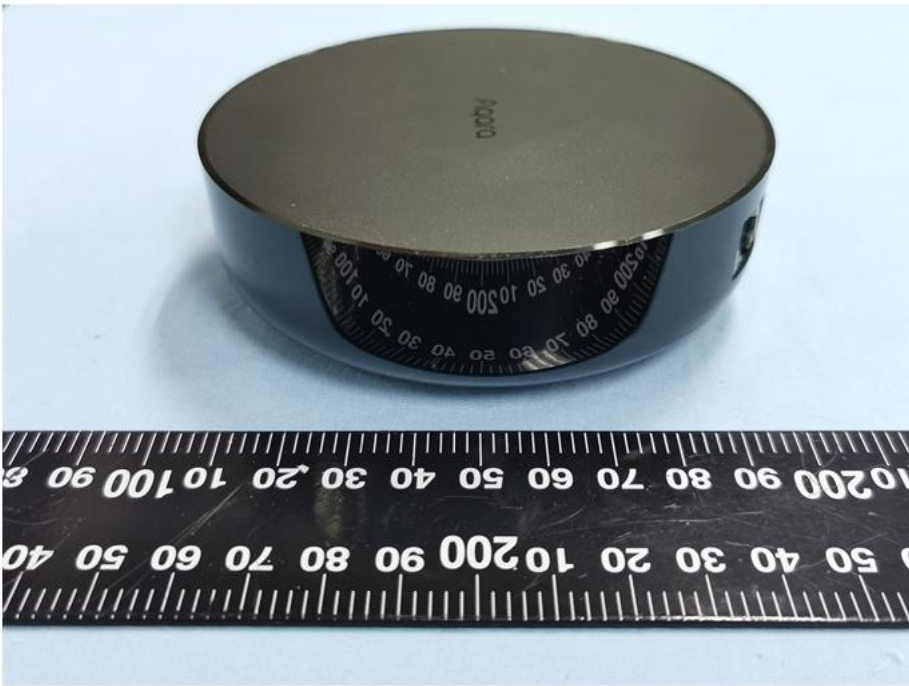

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing a black, circular electronic unit (EUT) with the brand name 'Aqara' printed in the center. To the right of the unit is a coiled black cable with a gold-colored connector. A black ruler with white markings is placed below the unit, showing measurements in centimeters and millimeters. The unit is approximately 10 cm in diameter.
EUT View 2	 A close-up photograph of the black, circular electronic unit (EUT) with the brand name 'Aqara' printed in the center. A black ruler with white markings is placed below the unit, showing measurements in centimeters and millimeters. The unit is approximately 10 cm in diameter.

EUT View 3	 A top-down photograph of a circular, black electronic device. The device has a perforated outer ring and a smooth central disc. On the central disc, there is a QR code, the 'zigbee' logo, and various certification marks including 'EAC', 'CE', 'WiFi', and 'Bluetooth'. A black ruler with white markings is placed horizontally below the device, showing measurements in millimeters and centimeters.
EUT View 4	 A side-view photograph of the same circular, black electronic device. The device is shown from a low angle, highlighting its rounded profile. A black ruler with white markings is placed horizontally below the device, showing measurements in millimeters and centimeters.
