- 2 Find the USIM Card number on the back of your USIM Card.

- 3 If you are already with Orange when you register, you will be asked for your Orange password. If you are new to Orange you should have a new password ready.
- 4 Contact Orange Customer services to register. If you are already with Orange and wish to register an upgraded phone, call 0800 079 0027. If you are new to Orange and will be paying monthly call 07973 100 980. If you are new to Orange with pay as you go call 0800 079 0006. If you are a Business Solutions customer please call 07973 100 158 to register or upgrade your phone.

## register with Orange

### After you register

Orange will update your USIM Card over the air with a text message. When you first turn on your phone you will see the USIM update message. You can leave it in your inbox until you are ready to delete it. Turn your phone off and on again for the update to take effect. See page 14 to learn how to turn your phone on and off.

### And lastly

When you apply to register on the Orange network, you and Orange agree to be bound by the Orange terms and conditions set out in the reference section of this guide. You may want to take time to read and consider them before you register.

## insert your USIM Card

- 1 Insert your USIM Card by sliding it into the card slot until it clicks into place. Make sure that the gold contacts are face down.
- 2 Ensure that the gold contacts on the battery are meeting the gold contacts on the phone. Slide the battery onto the contact points and press it down until it clicks into place.

## plug in and charge

Charge the phone until the orange light goes out the first time you use the phone for optimum performance. Subsequent charges should be for approximately four hours if the battery is completely flat. You can make calls while charging as long as you have registered with Orange, although this may increase the time needed to fully charge your battery.

- 1 Firmly insert the charger into the connection terminal on the bottom of your phone.
- 2 Plug the charger into a mains socket. The charge indicator on the top of your phone will light red while the phone is charging.
- 3 To remove the charger, press the release buttons on each side of it and pull it from the phone.

**Note:** Rechargeable batteries have a limited lifespan and Orange recommends that you purchase a new one every year. Call the Orange accessories hotline on 0500 178 178 for more details.

### ensure that only authorised people can use your phone

If your phone's USIM Card PIN is activated a four-digit PIN (Personal Identification Number) will be requested each time you switch your phone on. This PIN is preset to 1111. To increase your phone's security you can change the PIN to a number only you know.

If you enter an incorrect PIN 3 times in a row, the PIN will become locked. Enter the Personal Unblocking Key (PUK) when requested and then enter a new PIN twice to activate the USIM Card. Please contact your network provider for further information on PIN and PUK.

### What if I enter the wrong PIN?

If you enter an incorrect USIM Card PIN or PIN2 three times in a row, your USIM Card will block. You will need a PUK (personal unblocking key) to unblock your USIM Card.

Call customer services on **07973 100 150** if you are a pay monthly customer or **07973 100 451** if you are a pay as you go customer for details on how to unblock your phone.

Do not attempt to guess the PUK code. If you enter your PUK code incorrectly 3 times in a row, you will permanently block your USIM Card and you may have to return your phone to Orange.

## ensure your phone is secure

## safety

**1 network services**

The mobile phone described in this guide is approved for use on the Orange network. A number of features included in this guide are called Network Services. These are special services that you can arrange through Orange. Before you can take advantage of the Network Services, you must subscribe to them through Orange. Instructions for these services are included in this guide.

**2 everyday use of your phone**

Hold your phone as you would any other telephone, with the antenna pointing up and over your shoulder. If your phone has an extendible antenna, extend it fully. Do not touch the antenna unnecessarily when the phone is switched on, as this will affect call quality and may cause the phone to

operate at a higher power level than is needed. As with any other radio transmitting equipment, you are advised that for the satisfactory operation of your phone and for your own safety, you should use your phone only in the normal operating position.

**3 using your Orange phone in a vehicle**

Safety comes first, and is the ultimate responsibility of the driver. Therefore:

- Orange recommend that you do not use your phone when driving, unless you are using a wired personal handsfree kit or personal handsfree car kit.
- If you need to make or receive a call and you have a personal handsfree kit or personal handsfree car kit, make sure it is done sensibly using speed dialling or voice activation where possible, and

keeping calls brief and to a minimum.

- If you don't have a personal handsfree kit or personal handsfree car kit, stop and park your vehicle safely with the engine off before using your phone, although never on a motorway slip road or hard shoulder even if it is urgent.
- Do not store or carry inflammable liquids, gases or explosive materials in the same compartment as your phone, its parts or accessories and always store your phone safely and securely.
- You should always use a phone holder in your car to secure your phone safely. Never place the phone on the passenger seat or where it can break loose in a collision or sudden stop.

**Remember:** Always give your full attention to driving. There is a personal handsfree kit and personal handsfree car kit available for most Orange phones which you can

purchase separately by calling the Orange Accessories Hotline on 0500 178 178 or by visiting your local stockist.

**4 car kit installation**

- Only qualified personnel should install or service the personal handsfree car kit or the phone in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty which may apply to the unit.
- For vehicles equipped with an air bag, remember that an air bag inflates with great force. Do not place objects, including both installed or portable wireless equipment, in the area over the air bag or in the air bag deployment area. If a personal handsfree car kit is improperly installed and the air bag inflates, serious injury could result.
- Check regularly that all mobile phone equipment in your vehicle is mounted

and operating properly.

Your mobile phone is a low power radio transmitter and receiver. When it is switched on, it receives and sends out radio frequency (RF) signals. Most modern electronic equipment is shielded from RF signals. However, RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles (eg electronic fuel injection, electronic anti-lock braking, electronic speed control or air bag systems, etc). Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

## 5 fuse replacement

- Always replace a blown fuse with a fuse of the same type and size. Never use a fuse of a higher rating.

## 6 emergency calls

If your phone offers the features listed below, and if you have restricted or barred outgoing calls from your phone, calls to emergency numbers (999 or 112 in the UK) may still be possible. The features are:

- Restricted dialling lists
- Call barring
- Fixed dialling lists
- Calls to closed user groups
- Keypad locking

Ensure the phone is switched on and in service. Give your location to the operator.

### To make an emergency call:

- 1 If the phone is not on, switch it on.  
Check for adequate signal strength.
- 2 From the main display key in the emergency number for your location (eg 999, 112 or other official emergency number).

When making an emergency call, remember to give all the necessary information as accurately as possible. Remember that your phone may be the only means of communication at the scene of an accident - do not cut off the call until given permission to do so by the operator.

## 7 one touch emergency dialling

If your phone supports preprogrammed one touch emergency dialling, using the 9 key to call the emergency number may not be possible when you have restricted or barred outgoing calls from your phone. This depends on the type of restriction you have chosen, and the type of barring option you have selected.

One touch emergency dialling does not operate when certain other features are in use (such as keypad locking and others).

**Note:** Official emergency numbers (e.g 999, 112 or other official emergency number) may vary by location. However, only one official emergency number is programmed into your phone, which may be incorrect if you are using your phone overseas. Please check with our Partner Network abroad for the emergency number that is used in that location. Your Orange phone, like any mobile phone, operates using radio signals, mobile and fixed line networks which cannot always guarantee connection in all conditions. Therefore never rely solely upon your mobile phone for essential communication such as medical emergencies. Do not hang up during an emergency call until you are told to do so by the operator.

**Note:** When using voice dialling you must say the name exactly as you said it when you recorded it, which may be difficult in,

for example, a noisy environment or during an emergency. Do not rely solely upon voice dialling in all circumstances.

**Note:** A valid USIM Card must be inserted in your phone in order to make emergency calls. Pay as you go customers do not need to have talk time available, but need to have used the phone in the previous six months.

## 8 operating environment

Remember to follow any special regulations in force in any area, and always turn off your phone wherever it is forbidden to use it, or when it may cause interference or danger. When connecting the phone or any accessory to another device, read its user guide for detailed safety instructions. Do not connect incompatible products.

## 9 pacemakers

- Pacemaker manufacturers recommend that a minimum separation of 16 cm (6 inches) be maintained between a handheld phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research of and recommendations of Wireless Technology Research. Users with pacemakers should therefore:
  - Always keep your phone at least 20 cm (8 inches) away from your pacemaker when the phone is switched on.
  - Never carry your phone in your breast pocket.
  - Use the ear opposite to the pacemaker to minimise the potential for interference.
  - Switch off your phone immediately if you suspect that interference is being caused.

## 10 hearing aids

Certain hearing aids can be interfered with by your mobile phone. If this occurs, please consult the hearing aid manufacturer.

## 11 other medical equipment

Operation of any radio transmitting equipment, including mobile phones, may interfere with the working of other inadequately protected medical devices. Consult a physician or the manufacturer of the medical device if you have any questions. Always switch off your phone in health care facilities when any regulations posted in these areas instruct you to do so.

## 12 aircraft safety

Using your phone while in the air is prohibited. Switch off your phone before boarding any aircraft. The use of mobile telephones in an aircraft may be dangerous to the operation of the aircraft, disrupt the

mobile telephone network, and is illegal.

**Note:** Failure to observe this instruction may lead to suspension or denial of Orange phone services to the offender, or legal action or both.

## 13 explosive materials

- You are advised to switch off your phone when at a petrol station or other refuelling point. You must observe restrictions on the use of radio equipment in fuel depots (fuel storage and distribution areas); chemical plants or where blasting operations are in progress.
- Areas with a potentially explosive atmosphere are often but not always clearly marked. They include: below deck on boats; chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or

butane); areas where the air contains chemicals or particles, such as grain, dust or metal powders; and any other area where you would normally be advised to turn off your vehicle engine.

**Note:** The functioning of your phone can be affected by localised conditions, and we cannot guarantee coverage inside buildings. If you have difficulty in making or receiving calls, you should contact Orange customer services.

#### 14 general safety information

- When changing your phone's cover, always switch off the power and disconnect the phone from the charger or any other device. Always store the phone with the covers attached. Never use a phone without a cover.
- Remember to always make backup copies of all important data.

- Your phone must be switched on to access games, ring tone composer, calendar, calculator, wap, infrared, timer and other similar features. Do not switch your phone on when mobile phone use is prohibited or when it may cause interference or danger.
- The information or services you have accessed using wap are stored in the cache of your phone, which is a memory used to store data temporarily. You should empty the cache of your phone after each use to ensure that any confidential information cannot be accessed by anyone using your phone.
- Parts of the phone are magnetic. Metallic materials may be attracted to the phone. Always secure the phone in its holder because metallic materials may be attracted by the earpiece. Do not place credit cards or other magnetic storage media near the phone, because

information stored on them may be erased.

- Always switch your phone off in any facility where posted notices so require.

#### 15 phone and battery care

Warning: Use only batteries, charger and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.

- Do not charge the battery when either of your phone's covers are removed.
- Keep the phone and all its parts and accessories out of children's reach.
- Your phone is not water resistant. Keep it dry. Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits.
- Do not use your phone in dusty, dirty

areas. Its moving parts can be damaged.

- Your phone is powered by a rechargeable battery. Note that a new battery's full performance may only be achieved after two or three complete charge and discharge cycles.
- The battery can be charged and discharged hundreds of times but it will eventually wear out. When the operating time (talk time and standby time) is noticeably shorter than normal, it is time to buy a new battery.
- Temperature extremes may affect the ability of your battery to charge: allow it to cool down or warm up first.
- Never use any charger or battery which is damaged or worn out.
- Always unplug the charger when not in use. Do not leave the batteries connected to the charger for longer than a week, since overcharging may shorten its lifetime. If left unused, a fully charged

battery will discharge itself over time.

- Do not paint your phone as this can clog its moving parts and prevent operation.
- Only use the antenna supplied or an approved replacement antenna. Unauthorised antennae, modifications or attachments could damage the phone and may violate regulations governing use of mobile phones.
- Keep all USIM Cards out of children's reach.
- Use your phone battery only for its intended purpose, and never use any charger or battery which is damaged or worn out.
- Never allow the battery terminals to short circuit, as this can cause damage to the battery or to the connecting object (a short circuit can occur if a metallic object such as a coin, clip or pen causes direct connection between

the + and - terminals of the battery).

Therefore, always take adequate precautions when carrying a spare battery in a purse or pocket.

- Batteries must be recycled or disposed of properly and according to your local regulations, and must never be disposed of in household waste. Never dispose of batteries in a fire.
- When you disconnect the power cord of any accessory, including the charger, grasp and pull the plug, not the cord.
- For good operation times, discharge an NiMH battery from time to time by leaving your phone switched on until it turns itself off.
- Do not attempt to open the casing on your phone or its battery. Non-expert handling may damage it.
- Do not drop, knock or shake the phone. Rough handling can break the internal circuit boards.

- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean your phone. Wipe it with a soft cloth slightly dampened in a mild soap and water solution.
- Do not store it in hot areas. High temperatures can shorten the life of electronic devices, damage batteries and warp or melt certain plastics.
- Do not store your phone in cold areas. When it warms up (to its normal temperature) moisture can form inside the phone which may damage electronic circuit boards.

All of the above suggestions apply equally to your phone, battery, charger or any accessory. If any of them is not working properly, contact Orange customer services on 07973 100 150 or, if you are a pay as you go customer, on 07973 100 451, from any other phone for assistance.

## radio waves and your phone

Specific absorption rate, or SAR, is an internationally accepted way of measuring how much radio frequency (RF) energy is absorbed by the body when a mobile phone is used.

All phones on the Orange network are designed by the phone manufacturers to comply with the relevant recommendations and standards. Orange believes that new and existing customers should be fully informed about SAR.

The SAR value for your Sanyo S750 is 0.840w/kg. (0.776 w/kg according to FCC requirements.)

**Note:** The SAR value for your phone has been provided to Orange by the manufacturer. By acting as facilitator

for conveying this information to our customers, Orange is fulfilling its duty as a responsible retailer.

### 3 provision of Services

#### what we aim to provide in the UK

- 3.1 We will take all reasonable steps to make the Services available to you at all times. The Services are only available within the range of the base stations that make up our Network. We cannot guarantee a continuous fault-free service. Please note that:
- 3.1.1 the quality and availability of Services may sometimes be affected by factors outside our control, such as local physical obstructions, atmospheric conditions, other causes of radio interference, features or functionality of your Device, the number of people trying to use the network at the same time, and faults in other telecommunication networks to

which the Network is connected

3.1.2 the quality of our Services may not be at its best inside buildings or below ground.

- 3.2 When you move outside the Orange enhanced service area this may result in:

- 3.2.1 the call being terminated if you are on a video call
- 3.2.2 the speeds at which data is downloaded being affected.

- 3.3 Any coverage maps are our best estimate but not a guarantee of service coverage, which may vary from place to place.

#### Services may sometimes be affected by maintenance and upgrading

- 3.4 The Network and the Services may from time to time require upgrading, modification, maintenance or other

works. These may result in some or all of the Services becoming temporarily unavailable. In such cases, we'll do everything we can to keep the period of non-availability to a minimum. However, some interruption may be inevitable.

#### suspension of Services

- 3.5 We may suspend some or all of the Services you use, without giving you notice, if:
- 3.5.1 we have good reason to believe that you haven't complied with one or more of the terms of your Contract
- 3.5.2 you don't pay your bill within the time stipulated in Condition 6.2; we reserve the right to place a Bar on some or all of the Services from your Device (with the exception of calls to

the emergency services). This Bar will remain in force until you've paid everything you owe us. At our discretion, we may charge you for Reconnection and removal of the Bar

- 3.5.3 a complaint has been made against you. The complaint will be thoroughly investigated, and Services will remain suspended until we know the results of that investigation. Any complaint you make will similarly be thoroughly investigated
- 3.5.4 we have good reason to believe that your mobile phone number is being used for fraudulent or improper purposes
- 3.5.5 we suspect on reasonable grounds that information has been supplied to us without the knowledge of the person

- named or that an application is unauthorised or contains false particulars
- 3.5.6 you notify us that your Device has been lost or stolen
- 3.5.7 we are required by the emergency services or other government authorities to suspend your Services.
- 3.6 You will remain liable for all monthly or other periodic Charges during any period of Suspension.

#### **suspension of Orange Additional Services**

- 3.7 We reserve the right to change, suspend or withdraw part or all of any Orange Additional Service on giving reasonable notice.

#### **monitoring the Services you use**

- 3.8 For the purposes of good management and security and to make sure we follow your instructions correctly and to improve our service to you through training of our staff, or to monitor instances of unsolicited messages we may monitor or record communications. Where we have good reason to believe such communication is unsolicited you agree we may but are not obliged to block such communication.

#### **roaming Services outside the UK**

- 3.9 Roaming relies on the telecommunications systems of foreign networks, over which we have no control. We cannot therefore offer any guarantees about Roaming services.
- 3.10 If you use Services from a country

outside the UK your use of the Services may be subject to different laws and regulations that apply in that other country. Orange is not liable for your failure to comply with those laws or regulations.

#### **Storage and transmission of information on our Network**

- 3.11 We may establish limits concerning the use of the Services, for example the maximum size of an email message that may be sent or receive and the maximum capacity allocated to you for storage of Content on the Network which you access via the Services.
- 3.12 You agree that Orange has no responsibility for the deletion, corruption or failure to store any Content maintained or transmitted by the Network.

- 3.13 While Orange has no responsibility to monitor the use of the Services if you exceed the use limits we reserve the right to refuse to store or send Content on your behalf.

#### **access to the Services and Content**

- 3.14 Under no circumstances will Orange, or any of the other parties involved in the provision of Orange Content, be liable for any losses, damages, costs or expenses arising from or in any way connected with any errors, defects, interruptions, malfunctions or delays in Content or the provision of Content. Orange agrees to rectify any such problems in the Content which are notified to Orange as soon as Orange reasonably can. If you do notice a fault or error in the Content, please notify the fault to Orange.

3.15 Orange accepts no liability for the loss, late receipt or non-readability of any download, transmission or other communications. The Content, which is obtained from a large range of sources, is supplied to you on an “as is” basis and Orange does not warrant that the Content is of satisfactory quality, fit for a particular purpose, suitable, reliable, accurate, complete, secure or is free from error.

#### **access to the third party services and the internet**

3.16 We have no control over the value or quality of goods, services or Content offered by third parties on or through the Services. As a result we cannot be responsible or liable in any way for, and do not endorse, any of these goods, services or Content.

3.17 The Services may be used by you to access websites and networks worldwide. Orange accepts no responsibility for the Content or services in respect of these and you agree to conform with the instructions issued by those websites and networks relating to your use of those services.

3.18 Accessing the internet, which is not a secure environment, or using third party services may leave you vulnerable to unwanted programs or material or viruses that may be downloaded to your Device without your knowledge which may give unauthorised access to, or damage, your Device and the information stored on it. Orange is not liable or responsible in any way for such unauthorised access, damage to or loss of information on your Device.

#### **Age Restricted Services**

3.19 You are not permitted to access our Age Restricted Services (if any) if you are below the age specified to access the Services. If you are allowed to access the Age Restricted Services by virtue of the fact that you are the specified age or older you must not show or send Content from the Age Restricted Services to anyone below the specified age. If you let anyone under the specified age use your Device, you must ensure you deactivate access to the Age Restricted Services.

#### **4 your rights to terminate this Contract**

##### **terminating your Contract during the Minimum Term**

4.2 You may terminate your Contract before the Minimum Term has expired if you pay us:

- 4.2.2 a lump sum equivalent to the total of all the monthly or other periodic Charges still remaining on your initial Minimum Term agreement (except in the circumstances set out in Conditions 4.3 and 15.1). You'll be entitled to a rebate of 5% of that total if you terminate your

Contract up to and including the first day of the last month of the Minimum Term.

#### **terminating your Contract because Orange has changed its terms**

- 4.3 You may also terminate your Contract if we vary its terms, resulting in an excessive increase in the Charges or changes that alter your rights under this Contract to your detriment. In such cases you would need to give us at least 14 days' written notice prior to your Billing Date (and within one month of us telling you about the changes). However this option does not apply if:

- 4.3.1 we have increased the Charges by an amount equal to or less than the percentage increase in the All Items Index of Retail Prices published by the Central

Statistical Office in the Monthly Digest of Statistics in any 12-month period; or

- 4.3.2 the variations we have made have been imposed on us as a direct result of new legislation, statutory instrument, government regulation or licence; or
- 4.3.4 the variation relates solely to an Orange Additional Service, in which case you may cancel that Orange Additional Service in accordance with Condition 15.1.

#### **terminating your contract because Orange is no longer able to provide access to the Network**

- 4.4 If, for reasons beyond our control, we are no longer able to provide Network Services, we will at our discretion either:

- 4.4.1 make arrangements for you to be supplied with equivalent Services by another network at no extra cost to you, or
- 4.4.2 accept written notice from you that you wish to terminate your Contract. In such cases we will refund any pre-paid Charges that have not been used up.

#### **termination of your Contract by Orange**

- 4.5 We may terminate your Contract immediately at any time in respect of any or all the Devices owned by you, in whole or in part, by giving you written notice if:
- 4.5.1 you fail to pass any credit assessments which we may reasonably consider to be necessary from time to time
- 4.5.2 you fail to pay any of your bills from Orange on time

- 4.5.3 we have good reason for believing that any information you have given us is false or misleading
- 4.5.4 you become insolvent within the meaning of Section 123 of the Insolvency Act 1986, or bankrupt, or make any arrangement with creditors or go into liquidation or become subject to an administration order or a receiver is appointed over any of your assets or if we have good reason for believing that you are unable to pay the Charges
- 4.5.5 in addition, we may terminate your Contract at any time after the Minimum Term has expired by giving you at least one month's written notice.

### **termination of your contract by Orange without written notice**

- 4.6 We reserve the right to terminate your contract immediately at any time in respect of any or all of the Devices owned by you, in whole or in part without notice to you if
- 4.6.1 we have good reason for believing that you have breached Conditions 6.4.2, 6.4.3, 6.4.4, or 6.4.5, 6.4.8, 6.4.9, 6.4.10, or 6.4.11 or

- 5.1 When this Agreement is terminated, your Device will be Disconnected and you will no longer be able to use the Services.

### **what to do after Termination of your Contract**

## **6 your responsibilities**

### **when your payments are due**

- 6.1 Ordinarily we will invoice you monthly in advance for monthly charges which are non-refundable and monthly in arrears for call and message charges, but we reserve the right to amend the invoicing period and submit interim invoices to you. The Connection charge will be included on your first invoice. Charges in respect of Services not supplied directly by us, eg Roaming, may be invoiced several months in arrears. VAT will be added to all invoices at the relevant rate where applicable. Payment is due when you receive your invoice.

#### penalties for overdue payments

- 6.2 If payment is not made within 14 days of its due date, we may charge interest on all sums outstanding at the rate of 2% above the base rate of National Westminster Bank. This interest will be charged on a per annum basis calculated daily.

#### payment methods

- 6.3 Ordinarily we will accept payment of Charges by credit card, debit card, cheque, direct debit and electronic transfer, but we reserve the right to refuse any payment method if we have reasonable cause to believe such payment will be dishonoured.
- 6.3.1 We reserve the right to charge an administration fee each month for payments not made by direct debit.

- 6.3.2 We may arrange for invoices to be issued by a third party on our behalf. Invoices issued by such third party shall be binding on you and payment of such invoices in full to the third party will be a valid discharge of your liability to pay such invoices under this Agreement.

#### things that you agree to do

- 6.4 Recognising that good management and security of the Services is important to all Orange customers, you agree that you will:
- 6.4.1 provide whatever proofs of your identity and address we consider reasonably necessary from time to time. While photocopy or fax copies are usually acceptable we do reserve the right to request the original document

A popular published, currently available, monthly paid contract digital tariff available in the UK from O2 (UK) Limited (formerly British Telecommunications Mobile Communications Ltd), Vodafone Retail Ltd & T-Mobile (formerly One 2 One). For the avoidance of doubt this excludes O2 (Online) Limited tariffs.

#### OVP

Orange Value Promise

#### Service Plan

The scale of charges for using a mobile phone

#### Additional Services

Optional services which cost extra whether they are supplied in conjunction with

competitor tariffs or outside competitor tariffs

### 2 Scope

2.1 OVP applies to Competitors' tariffs for voice, answerphone, standard wap and standard person to person text messaging on other UK digital networks. It includes standard data calls at 9.6 kb per second. OVP excludes High Speed Data at 28.8 kb per second and GPRS calls.

2.2 Services will provide generally the same functionality of the Competitor's product but specifications may differ. Competitor's own branded e-commerce and Additional Services are not offered with OVP

2.3 For a list of current OVP tariffs please visit [www.orange.co.uk/cgi-bin/ovp/costs.pl](http://www.orange.co.uk/cgi-bin/ovp/costs.pl)

2.4 Once our Competitors close an OVP equivalent tariff for new connections, we may at our choice withdraw the OVP Plan for new connections and close the Service Plan to customers switching Service Plan.

2.5 We reserve the right to discontinue a currently available or a 'closed' OVP Plan and move existing customers to the nearest equivalent currently available Service Plan. We will write to the account holder to notify such changes.

2.6 OVP Plans are not available on Orange Line Two.

2.7 OVP does not apply to pay as you go, pay up front or shared tariffs.

2.8 OVP does not offer discounted rates or schemes for calls between nominated or frequently called numbers.

2.9 OVP does not apply to Competitor's

promotional tariffs but we reserve the right to offer a competitor's promotional tariff and may, from time to time, offer our own promotional variants of OVP Plans.

2.10 We reserve the right not to offer any Competitor tariff containing elements of services or functions that the Orange Network does not currently offer or to omit those elements of services or functions.

### 3 Charges

3.1 We will make reasonable endeavours to ensure that OVP Plan charges are the equivalent of the Competitor tariff published charges.

3.2 In the event that a Competitor makes any changes to a Competitor tariff, subject to the provisions of these terms and conditions we will make

- reasonable endeavours to implement any published changes to existing OVP Plans as soon as is reasonably practical.
- 3.3 If you are connecting to Orange on an OVP Plan you will be charged the equivalent of the Competitor's standard connection charge.

- 3.6 You may switch between OVP Plans or to an Orange Talk Plan by giving us at least 5 days notice before your Monthly Billing Date.
- 3.7 OVP Plans will replicate the charging structure & minimum call charges of the Competitor's tariff including, but

not limited to, service charges for itemised billing, non-direct debit payment, access charges for short message service, and charges for calls to Customer Service, 0800 & 0500 numbers

- 3.8 International direct dialled and Roaming calls will be charged at standard Orange rates

- 4.2 OVP Plan charges, for calls made to phones on the Competitor's network, will be the equivalent of the Competitor tariff charges for calls

made from their Network to phones on the Orange Network, subject to point 2.8 above. These are known as 'Mobile to Mobile Off Net calls'. For example, if 'Y tariff', on 'network X', charges 25p per minute to call another mobile phone on its network and charges 50p per minute to call a mobile phone on any other network, the OVP equivalent Plan will charge 25p per minute to call another Orange phone and 50p per minute to call a mobile phone on 'network X' or any other mobile network.

#### **5 Other Benefits**

- 5.1 OVP offers rollover on minutes and text messages on all OVP Plans with an inclusive bundle where the competitor tariff offers rollover on minutes or text messages. Rollover on

minutes or text messages is not available on Service Plans with an inclusive value bundle. Unused inclusive minutes and/or text messages from one month may be rolled over for use in the next. If the rolled over minutes and/or text messages are not used in that month they will be lost. We reserve the right to offer rollover as a promotion on certain OVP plans where rollover is not offered by the competition.

- 5.2 The Orange Network Performance Promise applies to OVP Plans, subject to its terms and conditions.

#### **6 Insurance Products & Orange Care**

- 6.1 Competitors' insurance products are not offered under OVP.
