Internal View of EUT-1

Antenna

A photograph of a custom electronic circuit board, likely a microcontroller-based device, resting on a light-colored wooden surface. The board is green and features a central integrated circuit (IC) with multiple pins. Several other components, including resistors and capacitors, are visible on the board. A small, rectangular, green component with four pins is connected to the main board via two black wires. A white ruler is placed horizontally below the board, showing measurements in inches (0 to 6) and centimeters (0 to 20). A vertical ruler is placed to the left of the board, showing measurements in inches (0 to 3) and centimeters (0 to 16).

Detail View of Chip
