SUBJECT: Class II Permissive Change for FCC ID: **QYLEM9190F**

The product, WWAN Module, has been granted by FCC dated **11/16/2022** under FCC ID: **QYLEM9190F**. The intention of this application is to enable the modular certified FCC ID: **QYLEM9190F** to be integrated in **Getac Tablet PC/ Model: F110, F110G6, F110-Ex, F110-631**. The **LTE Band 30** and **Sub-6 Band n41** transmission operation is disabled by software when the module integrated in the host device. The module as granted already includes the TAS chipset, and the TAS feature is enabled via software in this application. The software modification is a process controlled only by **Getac Technology Corporation**, there is no way that the end users or 3rd parties to modify this software. Excepting listing above, the others remain unchanged from original.
