

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) with various electronic components, including integrated circuits, capacitors, and resistors. The board is positioned next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The board is placed on a blue textured surface.
Solder Board-Component View 4	 A photograph of the same green printed circuit board (PCB) from a different angle, showing the solder side. The board is positioned next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The board is placed on a blue textured surface.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'UNIB1' and '20210830', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows dimensions in millimeters (mm) and centimeters (cm). The component has several solder points and a central chip.
Solder Board-Component View 6	 A photograph of the same green PCB component, labeled 'UNIB1' and '20210830', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows dimensions in millimeters (mm) and centimeters (cm). The component has several solder points and a central chip.
