maono

GLOBAL BEST SELLING INTERNET MICROPHONE

Maono(「mano), meaning "vision" in Kiswahili, is the Global Best Selling Internet Microphone Brand that products are sold well in 15.3 countries worldwide. With the beautiful vision of becoming a global leading brand of internet audio products that deliver a pleasant sound experience, Maono is always working with audio professionals, influencers, and users, to make the world's best microphones and audio products.

maonocaster™

Thanks for choosing Maonocaster C2 Neo podcast console.
Please read the User manual carefully to
have a better using experience.

Accessory List

Maonocaster C2 Neo Podcast Console — 3.5mm TRRS Audio Cable
USB-A to USB-C Cable — User Manual

Product Features

The Maonocaster C2 Neo audio console is the latest addition to the Maonocaster series. It features a simplified and compact design that reduces the learning curve and improves portability without compromising on the audio quality. We have also redesigned the I/O to make it work better with both PC and mobile devices.

The C2 Neo has an XLR microphone input with built-in premium preamps and phantom power that delivers studio-quality sound. It also supports USB microphones and has a user-either Bluetooth or 3.5mm AUX input for accompaniment. Additionally, you can utilize pitch presets, reverb presets, and three custom sound pads to elevate your content creating experiences.

Product Feature Highlights

- Multi-platform live streaming & podcast console
- Professional microphone and accompaniment volume control
- Side-chain and music only feature
- Direct monitoring and loopback switch
- Bluetooth 5.0 and 3.5mm AUX for wireless connection
- USB-C for easy connection with computer and mobile device.
- USB-C pass-thru charging for select mobile devices.
- Compatible with Windows and macOS
- Built-in Battery, up to 6 hours of off-grid operation.

Applications

Podcasting, recording, and streaming on computers, tablets, and smartphones.
Compatible with mainstream recording and streaming software.

Specifications

Input Connections	USB-C	Battery Type	18650
Frequency Response	20Hz-20kHz	Battery Capacity	5200mAh
SNR	100dB(A) (With 1kHz)	Power Input	5V/1A Max
Headphone Output	32Ω/20mW (With 1kHz, THD+N=1%)	Charging Time	Approx. 2.5hrs
Sample Rate	48kHz Max	Battery Life	Approx. 7 hrs
Wireless Connectivity	Bluetooth 5.0	Dimensions	180mm x 153mm x 102mm (including buttons)

Model No.: AMC2 Neo

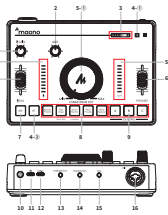
Information and data contained in this manual are subject to change without notice in advance.

Firmware Update:
We frequently update product firmware to improve user experience and performance.
The status display and operations may be slightly different among different firmware versions.
For latest user manuals, please access on https://www.maono.com/.

Layout



1. Microphone gain knob_① fader_② and level meter_③

Fine-adjust left and right to control the gain of the microphone. Keeping the gain too will reduce the amount of environmental noise being recorded.

Then slide up and down the fader to control the volume of the microphone.

The color distribution of the level meter: 1-6 green, 7-9 orange, 9 red.

To achieve the best audio quality, please keep the level meter in green and orange section.

2. Accompaniment volume knob

Rotate left and right to control the volume of audio input from USB-C input port, 3.5mm accompaniment input and Bluetooth input.

3. Battery level display

When all 3 LED lights are on, it means 100% battery level; when 2 LED lights are on, it means 75%; when 2 LED lights are on, it mean 50%; when 1 LED light is on, it means 25%. When charging, the battery level indicator LED lights will blink in sequence and a red light remains on.

4.Bluetooth LED indicator_① and switch button_②

① : After turning on the Bluetooth by long press the switch button, the LED indicator flashes and the device actively searches for and connects to paired devices. It stays on after a successful connection.

② : Press and hold the Bluetooth button for more than 3 seconds to turn the Bluetooth off.

5. USB&Stream Output level knob_① and output level meter_②

Rotate left and right to control the volume of audio output from 3.5mm stream output and USB-C output. The level meter on the right shows the output level.

6. Headphone volume fader

Slide up and down to control the headphone volume.

7. 48V phantom power supply switch

This button controls the phantom power of XLR microphone input. When the button is turned on, the LED indicator lights red.

Whether to turn on phantom power depends on the type of XLR microphone you are using. In most cases, only XLR condenser microphones require phantom power to function. If your microphone does not require phantom power, turning it on may damage it.

Tip: Phantom power cannot be turned on when there is no XLR microphone connected.

If you don't know what type of microphone you have, please contact your microphone manufacturer for confirmation.
