## Attestation

We, Murata Manufacturing Co., Ltd., attest the followings for our device FCC ID: VPYLBEE5HY2FY

1. Device Protocol Attestation Statement:

- a. Statement for modules only: As demonstrated in the test report, Contention-Based Protocol is permanently embedded in the module and is not host-dependent.
- b. Statement describing the indoor access point's method to control the associated client/subordinate power control.

2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. An Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, have an integrated antenna, not be battery-powered, and not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925-6.425 GHz band.
- c. Indoor access points, including drones, are prohibited for control of or communications with unmanned aircraft systems.
