中文 英文

Drive unit size: 10MM Power supply: SV=1A

Earphones: a 3.1g (a pair of 6.2g) Headphone Battery Type: 40MAH Charging time: 2 hours (from empty to full) Music playback time with Bluetooth on but active noise cancellation off: up to 6 hours

Frequency response range: 20Hz-20kHz Impedance: 32 ohm Microphone sensitivity: -38 dBV/Pa@1 kHz Bluetooth version (headset): 5.4 Bluetooth version (charging case): 5.4 Bluetooth profile version: A2DPV1.3.2, AVRCP V1.6.2,HFP V1.7.2 Bluetooth transmitter frequency range: 2.4 GHZ Bluetooth transmitter modulation (headphone): GFSK, $\pi/4$ -DQPSK,8-DPSK

-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

Bluetooth Transmitter Modulation (Charging Box): GFSK Maximum operating temperature: 45°C 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This

interference that may cause undesired operation. 15.21 Information to user. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. 15.105 Information to the user. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in

device may not cause harmful interference, and (2) this device must accept any interference received, including

a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed and operated with minimum distance **5mm** between the radiator and your body.

一只3.1g(一副6.2g)

2小时(从空电量到充满)

40MAH

400MAH
