

APX901 User's Instructions

1. Switch the radio "off".
2. Insert the 2.5 mm plug of the APX901 into the earphone jack of radio. See diagram for location.
3. Carefully place the collar of the earphone over the ear and position it where it can be comfortably worn.
4. Switch the radio "on" and set the volume control knob to minimal position.
5. Adjust the squelch control until audio can be heard from the earphone.
6. Adjust the volume to a comfortable level.
7. Readjust the squelch.
