Dear Examiner,

This is to request a Class II permissive change for FCC ID: XPYNINAB31, originally granted on 09/11/2018

The major change filed under this application is:

Change #1 Addition of portable host: 109M2380 and 109M2390, using NINA-B316 with integrated antenna.

The output power setting and antenna gain is the same as the original approval. The IEEE 802.15.4 zigbee radio capabilities are disabled – this chip is left unpopulated and not used by the host.
