① About the Manual

About the Manual / Warnings

The purpose of this Safety Information Guide (SIG) is to help you learn safe ways to use your mobile phone device and avoid serious and unsafe situations which could cause possible harm and injury.

⚠ Warnings

General Warning: You alone are responsible for how you use your phone and any consequences of its use and/or misuse. You must always switch off your phone when use of a phone is prohibited, such as in flight (with the exception of Airplane Mode, when permitted). Use of your phone is subject to safety measures designed to protect users and their environment.

Do not violate the following important instructions since violation may result in serious injury.

Do Not:

Battery & Charger

About the Manual / Warnings

- Place your device in a microwave, which could lead to an explosion.
- Store your phone at temperature less than 14°F (-10°C) or more than 113°F (45°C).
- Expose your mobile phone device to open flames.
- Disassemble or attempt to repair your device. Instead, use an authorized service center.
- Drop the phone. If the phone is dropped, especially on a hard surface, and the user suspects damage to the phone, take it to a service center for inspection.

Safety Information

Safety Information

The following information is for your safety only.

Do Not:

Wash or expose your mobile phone to various

- liquids.

 Use your device in high humidity conditions for
- a long period.
- Drop, throw or bend your phone.
- Use harsh chemicals, cleaning solvents or aerosols to clean your phone.
 → In such a case, to clean, only use a soft, lint
- -free cloth and avoid excessive wiping. Remember to unplug all power sources, devices, and cables.
 Dispose of your old device in typical trash containers. Instead, follow local regulations on
- Allow your pet to use your device as a toy and bite into it as it may cause electric shock or fire.

how to dispose of electronic products.

 Set the volume too high as it may cause hearing injuries. Use your device near a gas station as it may cause sparks that may cause a possibility of fire.
Use the device if the device overheats and feels

- too warm. In such a case, turn off your device.
 Let it cool before using it again.

 Leave your mobile phone device in a hot car for
- Leave your mobile phone device in a hot car for a prolonged period of time, as the overheated device may cause battery issues, fire or explosion.

Store your device while plugged in when it is

- not in use for a prolonged period of time.

 Turn on the device if the device is accidentally dropped in water. In such a case turn off your
- dropped in water. In such a case, turn off your device, dry your device with a clean dry cloth; leave the device to dry for at least 48 hours before use.
- Use the device if the display glass is broken, which can cause injury to skin.
- Use an unapproved or unspecified charging adapter and cable; use the charging cable and adapter that was provided with your device.
- Insert the USB cable into the charging port if the cable pins are damaged.

FCC Regulations

Safety Information

 Use your device near a medical device such as a defibrillator, as the radio frequency in the device may interfere with its function.

correct the interference by one or more of the

Safety for Children:

Safety Information

Keep your phone and its accessories away from the reach of small children. Do not allow children to play with the phone, its parts or accessories, because they can injure themselves or others. Your phone contains small parts and sharp edges which can detach and become a safety hazard for children, including a choking hazard. Seek immediate medical attention if an accessory, part or battery is swallowed.

Transportation Safety Warning:

- Please observe all transportation laws and regulations. DO NOTTEXT AND DRIVE.
- Do not use your device at a gas station, near fuels or chemicals where there is a risk of fire and/or explosion.

 On an aircraft, using electronic devices may interfere with the aircraft's electronic navigational instruments. Make sure the device is

turned off or switched to Airplane Mode while on an aircraft.

Safety Information

 Use caution when making calls in heavy traffic or hazardous weather conditions such as rain, sleet, snow, ice, and heavy traffic. Battery & Charger

Battery & Charger

This phone contains a Lithium-ion battery. Improper handling of the battery pack may present a risk of fire and burn. Do not attempt to open the battery pack yourself. Do not disassemble, crush, puncture, short-circuit the external contacts, dispose of in fire or water, or expose the battery pack to temperatures higher than 140°F (60°C). To replace the battery, take the device to an authorized service center. Recycle or dispose of the device according to local regulations.

Take extra precautions:

- Do not disassemble or open, crush, bend or deform, puncture or shred.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard.

 Only use the battery with the charging system that has been qualified per CTIA Certification Requirements for Battery System Compliance to IEEE 1725. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard.

- Do not short circuit a battery or allow metallic conductive objects to contact battery terminals.
- Only use an authorized service provider to replace the battery.
- Only dispose of the device in accordance with local regulations for consumer electronic waste.
- Improper battery use may result in a fire, explosion or other hazard.

FC FCC Regulations and Compliance Information

FCC Regulations

I. Part 15 compliance statement

This mobile phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference reveived, including interference that may cause undesired operation.

ment off and on, the user is encouraged to try to

This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equip-

following measures:
• Reorient or relocate the receiving antenna.

- Increase the separation between the equip-
- ment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note:

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The exposure standard for wireless devices is based on a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg. This device has received a grant of FCC Equipment Approval confirming that this model phone has been evaluated as in

the lower the power output.

required to reach the network. In general, the

closer you are to a wireless base station antenna,

SAR compliance for body-worn operation is based on a separation distance of 10 mm between the unit and the human body. Carry this device at least 10 mm away from your body to ensure RF exposure level compliant with or lower than the reported level. To support body-worn operation, choose belt clips or

holsters which do not contain metallic compo-

nents comma to maintain a separation of 10 mm

between this device and your body.

have the rating on their box or a label located on the box. The ratings are not guarantees. Results will vary depending on the users hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

This phone has been tested and rated for use with hearing aids for some of the wirelesstechnologies that it uses. However, there may be some newer

requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch") than unrated phones. T4 Is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be rated. Your hearing device manufacturer or hearing health professional may help you find this rating. For more information about FCC Hearing Aid Compatibility, please go to http://www.fcc.gov/cgb/dro.
