## Quick Start Guide 3IN1 PRO MAG SERIES

EN

### Introduction:

Thank you for choosing this product. Please read this manual carefully prior to use so as to fully understand the product and its correct usage.

- Do not alter, modify or disassemble the charging device. There are no user-serviceable parts inside, and incorrect reassembly may result in shock or fire hazard.
- Do not drop or subject the charging device to strong mechanical shock. Do not expose to moisture, water, rain, snow, spray, heat, sources of ignition or direct sunlight.
- Use a damp soft cloth to clean the surface of the case. Do not use chemical solvents.
- Contact our Customer Support team if you are unable to effectively troubleshoot problems with this device.
- Do not operate the charging device if it has been dripped or otherwise damaged in anyway.
- The charging device will generate heat with charging. Always charge in a well ventilated area. Do not charge in environments where the temperatures exceed 40°C.
- Keep out of reach of children.
- To reduce the risk of electroshock, unplug the charging device from any power source before attempting maintenance and cleaning.

### Package Content:

- 1 x Powerbank
- 1 x USB C - USB C Cable
- 1 x User Manual

EN

### Specifications:

- Product name: Power Bank
- Product model: MSAL1/9PP10K05B/9PP10K05W
- Dimensions: 104 x 68 x 24 mm
- Supported products: iPhone, Watch, iPad, Smartphones etc.

### Product Description:

Equipped with smart charging and wireless charging technology, the power bank automatically detects your device and provides an ample and stable charging current. Devices supported include mobile devices, tablets, digital cameras, and devices with USB charging interfaces. Up to 2 devices can be charged simultaneously. With its high quality material construction and built-in short circuit protection, in case of current, voltage or temperature overload, the power bank provides a safe, fast and simple charging solution for all of your USB compatible devices.

### Input & Out portspecif ications:

- Cell type: Lithium Polymer
- Battery Pack Capacity: 10,000 mAh/ 38.5Wh
- Type-Input: PD18W - DC5V=3A ; 9V=2A ; 12V=1.5A
- Type-C Output: PD20W - DC5V=3A ; 9V=2.22A ; 12V=1.67A
- Wireless: Magnetic 5W, 7.5W, 10W, 15W (Max)
- Watch: 2.5W (Max)

### Product Features:

- 1. Stable and optimal charging conditions for your compatible devices.
- 2. High quality material construction.

EN

### Operation:

1. 15W Phone Wireless Output
2. 2.5W Watch Wireless Output
3. TYPE-C Input/Output
4. Key
5. Indicator Light

### Power Indicators:

- The indicators show the remaining power of this device
- If the last indicator flickers, means the power is low, please charge it in time.

EN

### Warranty & Customer Support:

- Go green with XPN and recycle this device at designated collection and recycling places.
- If this device is not used for a long time, please charge it at least every 3 months
- It might produce slight heat during charging, which is normal as long as it's below 55°C
- Always keep this device dry and do not clean it with chemical agents
- Go greenwith XPN and recycle this device at designated place
- Children must use it under the guidance of adults.
- Do not crash, disassemble, impale or put this device into humid conditions
- Do not use it to charge devices with incompatible current and voltage, which will cause fire or other problems

9Fit Notice:  
This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.  
No Change or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and may interfere with other equipment operating in the same frequency band. If you experience interference, you may need to take additional measures to reduce interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
- Consult the dealer or an experienced radio/TV technician for help.  
The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
