

Charging

• Earbuds Charging

The earbuds will only be charged when you place them in the charging slots correctly. (You can charge the charging case and the earbuds at the same time, or you can charge the charging case first and then the earbuds.)

The indicator light will show orange while charging.

The charging case will stop charging automatically and the indicator light on earbuds will go out when fully charged.

When the earbuds are charging in the charging case, the digital display bar of the case will keep flashing and once fully charged, it will black out

• Case Charging

There is a Type-C usb charging cable in the package, please use it to charge the case directly. During charging, the digital display will flash and display the battery level in real time. When fully charged, the number shows 100.

Earbuds Charging

Case Charging

Charging Alerts

- After using it for a long period of time, due to the oxidation of the magnet connector, the earbuds might not be charged or even turned on.
- You can fix this problem by cleaning the magnet connectors on the earbuds and charging case with an alcohol wipe
- Put the earbuds in the charging case, the earbuds will turn off immediately and the charging case will start to charging automatically.
- The earbuds will connect the last paired phone automatically.

Storage and Maintenance

- If the earbuds have not been used for more than 3 months, we recommend that you charge it.
- Please use an charger approved by FCC (Federal Communications Commission).
- Do not disassemble the earbuds.
- Children aged 12 and under require adult supervision.
- Do not expose the earbuds to high or low temperatures, and do not use the earbuds during a thunderstorm.
- Avoid free fall or violent shock to the device. Keep the device away from sources of fire and do not place the device in water.

Frequently Asked Questions

Q : Why don't these earbuds pair with my phone?

A : Make sure the earbuds are fully charged and powered on.

Make sure your phone's Bluetooth is enabled

If there is no problem with the two points stated above, turn off the powered-on earbuds after 5 continuous and quick clicks.

Put them back into the charging case and close the lip, wait for 1 minute, then open the charging case and reconnect the earbuds to the phone.

Q : Why does the music cut in or out?

A : First, keep the earbuds no more than 15m away from your phone (no obstacles).

If the distance is less than 15m, follow these steps:

1. Put the earbuds back into the case and close the lid, manually click "forget the J66" on your phone.
2. After 10 seconds, open the charging case and reconnect these earbuds with your phone

Q : Why the earbuds still won't be charged or disconnect from the phone after I put them in the case and close the lid?

A : Make sure the charging case is not in a low battery state.

If the charging case is in a low battery state, the earbuds will neither be charged nor disconnected.

In this case, please use a type-c charging cable to fully charge the case.

Q : Are these earbuds sweat- and water-resistant?

A : These earbuds are sweatproof and slightly waterproof. For electronic devices, we do not recommend that you submerge the earbuds in water.

Permanent replacement of damaged, defective item or missing components. Please activate via email below within 30 days. earbudsvip28@gmail.com

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Compliance Statements

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 5mm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
