In lieu thereof, the applicant shall attach **a statement setting out:**

- (1) The original **identification used on the equipment** prior to the change in identification.
- (2) The **date of the original grant** of the equipment authorization.
- (3) How the equipment bearing the modified identification **differs** from the original equipment.

Photographs of the construction, the component placement on the chassis, and the chassis assembly are not required to be submitted unless specifically requested by the Commission.

(c) If the change in the FCC Identifier also involves a change in design or circuitry which falls outside the purview of a permissive change described in 2.1043, a complete application shall be filed pursuant to 2.911.
