

Mike Kuo

Subject: March 23 TCB statement

The original application was granted on 02/28/05 as limited modular approval due the radiated emission tests were performed inside the notebook computer. The applicant has submitted separated test report on March 18 with radiated emission tests performed on the extended board to comply stand alone test configuration for full modular approval.

The following files have been replaced :

1) cover letter: replaced limited modular approval request to full modular request.

The following files are submitted on March 22, 05:

- 1) Additional stand alone radiated emission test report.
- 2) Applicant request letter to change from limited modular approval to full modular approval.
- 3) Agent authorization letter.
- 4) Stand alone test set up photos.

Best Regards

Mike Kuo
