FCC STATEMENT: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules.
Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

RF Exposure Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

IC CAN IECS-003/NMB-003

GUIDE D'UTILISATION

MAGNÉTIQUE CHARGE SANS FIL SUPPORT DE VENTILATION

AT-VMMS

AUTOTECH
by TOUGHTESTED

INSTRUCTION

1. Appuyez sur le bouton de libération rapide pour ouvrir les pinces et verrouiller solidement le support sur la ventilation. Appuyez à nouveau sur le bouton pour libérer.
2. Tournez le bouton pour verrouiller le support de téléphone en place. Le support peut pivoter à 360 degrés.
3. L'aimant compatible Magsafe maintient fermement votre iPhone 12 ou version supérieure sans étui. Pour les téléphones non Apple, vous pouvez utiliser la plaque à anneau (fournie) pour la fixer sur le support de téléphone.
4. Branchez le câble dans le port et l'autre côté dans le port USB de votre voiture pour une charge sans fil.

GARANTIE LIMITÉE

Merci d'avoir choisi un produit ToughTested® de Mizco international, Inc.

Nous voulons que vous profitiez de ce produit en n'ayant aucun problème. Cependant, dans le cas peu probable de mauvais fonctionnement, nous le réparerons ou le remplacerons dans le cadre de la garantie limitée de 5 ans du produit.

Si le produit devient défectueux pendant une utilisation normale, la responsabilité de ToughTested® se limitera à la réparation ou au remplacement, à son gré, du produit. Cette garantie ne s'applique pas aux dommages ou aux pannes résultant d'une mauvaise utilisation, d'une négligence, d'un accident, d'une modification, d'un abus, d'une mauvaise installation ou d'un entretien inadéquat.

Toutes les marques mentionnées aux présentes sont les marques de commerce déposées de leurs fabricants respectifs. Les caractéristiques techniques et de conception sont susceptibles d'être modifiées sans préavis.
