### 9. ANTENNA REQUIREMENT

### 9.1. Standard Requirement

An intentional radiator shall be designed to ensure that no antenna other than that furnished by the responsible party shall be used with the device. The use of a permanently attached antenna or of an antenna that uses a unique coupling to the intentional radiator shall be considered sufficient to comply with the provisions of this Section. The manufacturer may design the unit so that a broken antenna can be replaced by the user, but the use of a standard antenna jack or electrical connector is prohibited.

#### 9.2. Antenna Connected Construction

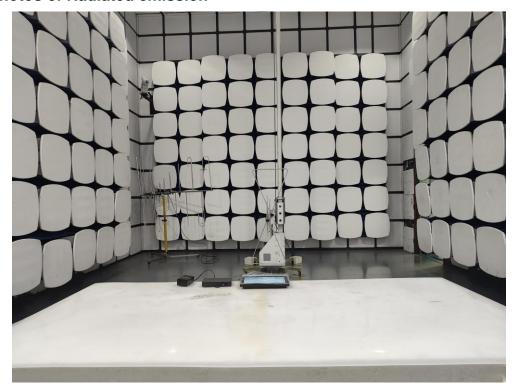

The antenna connector is unique antenna and no consideration of replacement. Please see EUT photo for details.

#### 9.3. Results

The EUT antenna is integrated antenna. It complies with the standard requirement.
