

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON, D.C. 20554

SEP 1 1994

IN REPLY REFER TO:

31030/EQU/4-2-4  
1300B4

Mr. Valdis V. Liepa  
University of Michigan  
Radiation Laboratory  
NASA/Center for Space Terahertz Technology  
3228 EECS Building  
Ann Arbor, MI 48109-2122

Dear Mr. Liepa:

This is in reply to your facsimile transmission of August 2, 1994, regarding the labelling of a low power communication device that will be marketed within the U.S. and Canada. You request approval to combine the labels for both countries, permitting a single label to be employed. As indicated, this combined label would read as follows:

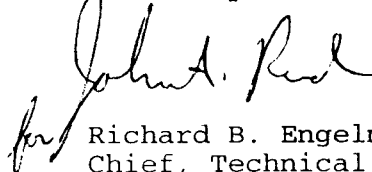

"This device complies with Part 15 of the FCC Rules and with RSS-210 of the Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

According to Section 15.19(a) of our rules, a low power communications device operating under Part 15 must be labelled with the specific statement contained in paragraph (a)(3). The only difference between the statement required under our rules and your proposed statement is the addition in the first sentence of the phrase "... and with RSS-210 of the Industry Canada."

I note that Kwai Lum of Industry Canada, in a facsimile to you on August 3, 1994, has already given permission to use this combined label. I also agree that the use of this combined label, as shown above, is acceptable under our regulations. This label conveys the desired information and is essentially identical to our requirement. As expressed by Mr. Lum, text denoting compliance with the standards for both countries was not stated in our rules as "it would be too presumptuous [to assume] that all products are for both markets."

I trust that the above responds to your inquiry. Additional questions should be directed to John Reed, 1300B4, at the address on the letterhead or at (202) 653-7313.

Sincerely,

Richard B. Engelman  
Chief, Technical Standards Branch  
Office of Engineering and Technology

Our Ref : DGEP-5630-1 (RSS-210 Labelling)

This is to respond to your fax of August 1, 94 requesting that we permit a combined statement for FCC and Industry Canada on the equipment labels.

We wish to assure you that your suggested combined label that you submitted in your fax is acceptable to Canada since our standard (section 5.8 of RSS-210) allows (to quote) ".....equivalent statement.....".

We have made our labelling statement as close as we can to Part 15.19(3); the differences are : we left out the word "harmful" because of difficulties in defining what is harmful. We added the phrase "of the device" to remove any possible misunderstanding.

To re-capitulate, although your proposed statement uses FCC text except for the mention of "RSS-210 of Industry Canada", we consider it to be equivalent. Our preferred text is per RSS-210; the next best is to add the word "harmful" to meet FCC requirements.

Since FCC and Industry Canada are from different countries, we do not consider it necessary to state in our separate standards a combined text. In any case it would be too presumptuous that all products are for both markets.

Our equipment certification staff will be informed of the above. We will also copy this to Mr Reed of the FCC since you said that you sent a similar fax to him.

Regards,

Kwai Lum

cc Mr John Reed (FCC OET fax 202-653-8773).  
cc R. Corey (Equipment Certification).

Re: Power of Attorney for Dr. Valdis V. Liepa

To Whom It May Concern:

Lear Corporation EEDS and Interiors (formerly known as United Technologies Automotive, Inc.) has this day, December 4, 2002, appointed Dr. Valdis V. Liepa, Research Scientist of University of Michigan, whose address is EECS/Rad Lab, University of Michigan, Ann Arbor, Michigan 48109-2122, as the agent to act for it in all matters pertaining to the Federal Communications Commission authorization for our products. This appointment is valid for a period of one year, commencing with the date of this authorization.

#### REQUEST FOR CONFIDENTIALITY

Pursuant to 47 CFR 0.459, Lear requests that a part of the subject application be held confidential. This comprises Exhibits

- (5) Schematics
- (10) Parts List (Part of Exhibit only)

Lear has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

If there are any questions regarding this request, please contact me at the above address or call 734-483-4211, fax 734-647-2106 or e-mail [liepa@umich.edu](mailto:liepa@umich.edu).

Sincerely,

### GENERAL PRODUCT INFORMATION

The device, for which certification is pursued, has been designed by:

Lear Corporation  
5200 Auto Club Drive  
Dearborn, MI 48126

Tom Tang  
Wireless Engineering Manager  
Tel: (313) 593 - 9934  
Fax: (313) 240 - 3062

It will be manufactured by:

Lear Corporation  
5200 Auto Club Drive  
Dearborn, MI 48126

Tom Tang  
Wireless Engineering Manager  
Tel: (313) 593 - 9934  
Fax: (313) 240 - 3062
