product's fitness for use, in the event of damage caused by chemical or electrochemical effects, by water, moisture, debris or generally from abnormal conditions.

2) The warranty will be performed in such a way that we shall decide whether to repair the defective parts or to replace them with working parts. REPLAY reserves the right to exchange the product for a replacement product of equal or greater value if the product cannot be repaired within a reasonable time or at a reasonable cost. Products and/or parts that have been replaced or exchanged become property of REPLAY.

3) The warranty is voided if repairs or modifications are performed without the written consent of REPLAY or if our products are equipped with additional parts or accessories that are not approved for the REPLAY. Using any charger, other than a genuine REPLAY charger, or a charger for a different model, voids the warranty and is a serious fire hazard. Exposure to water, moisture, mud, dirt or debris, voids the warranty.

4) Warranties that have been activated do not cause the warranty period to be extended, nor do they trigger a new warranty period. The warranty period for any replacement parts installed ends with the warranty period for the entire product. 5) Any other further claims are excluded, especially those for replacement due to damage caused to the outside of the product, provided there is no obligatory legal liability.

We therefore accept no liability for accidental, indirect or other consequential

and/or videos to properly diagnose the issue and verify warranty eligibility. A copy of your receipt or online order confirmation, with purchase date visible, is required. REPLAY reserves the right to verify purchases with the retailer and/or asset protection databases, and will deny warranty claims if the receipt is invalid, cannot be verified, or if the item has been returned or exchanged. If it is determined that a warranty claim exists, at our sole discretion, REPLAY may send replacement parts and or issue an RMA number (Return Material Authorization) to send the product to REPLAY. If an RMA is issued, the package must be shipped within 14 days of the RMA issuance or the package will be refused and returned to sender. If, at the sole discretion of REPLAY's technicians, the item is found not to have a manufacturer defect, has been subject to abuse, the malfunction is due to water, debris or moisture exposure, or the item has been improperly maintained, customer will be charged for return shipping and no repairs will be completed. IMPORTANT: REPLAY will only accept parcels that have an RMA number. The limited warranty stated above is only valid for products sold in the
