

# Keyboard

## QUICK START GUIDE

NK010

### Keyboard introduction

#### Programmable key area

Users can program and customize key functions

#### Combination key are A

Single key : Value below the key silk screen

Shift + Key : Value above the key silk screen

Fn + Key : Value at the bottom right of the key silk screen

#### Combination key are B

Single key or Shift + Key: Value at the top of the key silk screen

Fn + Key: Value at the bottom of the key silk screen

#### Numeric key area

Numeric key: Enter values

Cash key: The key value is 07/8A. It can program on its own to drive the money box

#### Keyboard interface

Connect devices via the Type-c interface data cable

Combination key are A

Programmable key area

Combination key are B

Numeric key area

Keyboard interface

### Basic parameters

Keyboard interface : USB

Working voltage : DC 5V

Working current : less than 20 mA

Dormancy current : less than 5 mA

Number of keys : 89 keys

Key life : > 10 million times

Product weight : ~410g

Waterproof grade : IP55

Product size : 275.8\*113.1\*26.4mm

Operating platform : windows / Android

### Packaging contents

- ☒ One keyboard
- ☒ One User Guide
- ☒ One Type-c data cable

### Disclaimer

Due to product update, some details of this document may not conform to the real product. Please refer to the real product. Our company shall reserve the right to interpret this document and amend this User Guide subject to no prior notice.

Manufacturer: Shanghai Sunmi Technology Co.,Ltd.  
Address: Room 505, KIC Plaza, No.388 Song Hu Road,  
Yang Pu District, Shanghai, China

### Table for names and contents of toxic and harmful substances in this product

Part Name	Toxic or Hazardous Substances and Elements									
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE	DEHP	DBP	BBP	DIBP
Circuit Board	×	○	○	○	○	○	○	○	○	○
Structural	○	○	○	○	○	○	○	○	○	○
Packaging	○	○	○	○	○	○	○	○	○	○

○ : indicates that the content of the toxic and hazardous substance in all homogeneous materials of the component is below the limit specified in SJ/T 11363-2006.

X: indicates that the content of the toxic and hazardous substance in at least one homogeneous material of the component exceeds the limit stipulated in SJ/T 11363-2006. However, as for the reason, because there is no mature and replaceable technology in the industry at present.

The products that have reached or exceeded environmental protection service life should be recycled and reused according to the Regulations on Control and Management of Electronic Information Products, and should not be discarded randomly.

### Reminder

If the keyboard is accidentally contaminated with hot water and coffee, etc., please dry it in time so as to prevent keyboard abnormalities.

### *FCC Statement*

*Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.*

*This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:*

- (1) This device may not cause harmful interference, and*
- (2) This device must accept any interference received, including interference that may cause undesired operation.*

*Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:*

- Reorient or relocate the receiving antenna.*
- Increase the separation between the equipment and receiver.*
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- Consult the dealer or an experienced radio/TV technician for help.*
