Subject: Original Application for Certification of Spread Spectrum Transmitter
Acer Bluetooth PC Card, FCC ID: JVPBT100

Gentlemen:

Enclosed find Acer Communications & Multimedia Inc.'s (formerly known as Acer Peripheral Inc.) Equipment Authorization July 22, 2001. This device is in compliance with Part 15, Subparts B and C and in accordance with Section 15.247 of the FCC Rules. The schematic diagram is being submitted under confidentiality, pursuant to Section 0.459 as it contains confidential information and would not routinely be made available to the general public.

The subject device is a 79-channel frequency hopping spread spectrum PCMCIA Card, which will operate within 2400~2483.5 MHz frequency band. This device complies with bluetooth technology, operates with nominal host provided 5VDC, has internal 9.1mm antenna and is capable of supporting maximum rated RF output power equal to or less than 20 dBm (100 mW). This device's associated receiver and computer peripheral device will be authorized under Declaration of Conformity (DoC).

This EUT was tested in accordance with ANSI C63.4-1992 to show compliance with FCC Parts 15B and 15C limits.

Should you have any questions or comments, please contact the undersigned. Thank you for your attention and cooperation in this matter.

Sincerely yours,

Richard Mullen
