

Wireless Keyboard and Mouse Combo

Installing Batteries

On the underside of the **mouse**, remove the cover of the battery compartment and install 2 AAA batteries (not included), aligning the polarities as indicated within the battery compartment. The mouse sensor just above the battery compartment will turn RED after the batteries are successfully installed. Close the battery compartment when finished.

On the underside of the **keyboard**, remove the cover of the battery compartment and install 1 AA battery (not included), aligning the polarities as indicated within the battery compartment. Close the battery compartment when finished.

Setting up the Keyboard and Mouse

Remove the nano USB receiver from the underside of the mouse, just below the battery compartment, and insert into your computer's or device's USB port. The mouse and keyboard require no additional software or hardware to function, after a moment both the mouse and keyboard will be usable.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
