Dear Mr. Andrew Leimer,

By confirming with applicant and Intel, the chip manufacturer, about the operating frequency in UNII band, 5.8GHz does has been covered though it hasn't been specified in the operational description.

Besides, please be noted that based on applicant's request, the product name would like to be revised to "tablet PC", therefore, we have revised and uploaded all reports, including UNII, DTS and SAR reports.

Thank you.

Best Regards,

Antony Yao
