Product standard

Product model: TS08 Bluetooth version: V5.4 Transmission distance: ≥10m Earphone Capacity: 35mAh/0.1295Wh Music time: 6.5 hours

Charging time: about 2 hours (earphone)

Rated input: 5V == 35mA

Charging case specifications

Charging Case Capacity: 250mAh/0.925Wh Charging time: about 2 hours Rated input: 5V == 300 mA (All technical information is

subject to actual performance) Charge the charging box Connect the charging case to the 5V power adapter with the Type-C charging cable (Warm tip: When the lid is red, please charge the charging box in time)

Rated input: 5V = 35mA(earphone)

5V = 300mA(Charging case)

Product Operation Instructions

1 Power on

None (Open the cover and start automatically)

② Power off None (automatic shutdown with closed cover)

③ pair

Step 1: Bluetooth pairing is automatically entered after the device is turned on Step 2: Open the Bluetooth list of smart devices, search for "TS08" and connect

6

Touch key operation

Touch key operation

(Phone hands-free

Answer: Touch left/right ear for 2 times Hang up: Touch left/right ear 2 times
Reject: Press left/right ear for 3 seconds

Clear away pairing/factory data reset

ullet The headset is touched five times or is not connected

Declaration of hazardous substances in products

Part name	Harmful Substances					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Host machine	0	0	0	0	0	0
Accessories	0	0	0	0	0	0
This form is compiled in accordance with SJ/T 11364-2014.						

O:Indicates that the content of the hazardous substance in all homogeneous materials of the part is in below the limit required by GB/T 26572.

X: Indicates that the hazardous substance at least in a certain homogeneous material of the part exceeds The limit requirements specified in GB/T 26572, And there are currently no mature alternatives in the industry.

The number in this label indicates that the environmental protection life of the product under normal use is 10 years.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

connected.

- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

(2) us device mass accept any acceptance operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
