

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is irregularly shaped and features several surface components, including two large silver-colored connectors, a USB connector, and various smaller electronic components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The board is irregularly shaped and features a grid of 16 circular solder pads arranged in a 4x4 pattern. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled '3', showing a grid of 24 circular solder pads arranged in 4 rows and 6 columns. The board is positioned against a blue background with a black ruler showing millimeter markings. The board's dimensions are approximately 60 mm by 40 mm.
Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', showing a rectangular board with several solder pads and components. The board is positioned against a blue background with a black ruler showing millimeter markings. The board's dimensions are approximately 60 mm by 20 mm.

Solder Board-Component View 5	 A photograph of a small green printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. The component is rectangular with several gold-plated pins along its edges. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40 mm in width and 20 mm in height.
Solder Board-Component View 6	 A photograph of a larger green printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is rectangular with various electronic components, including a large black integrated circuit (IC) and several smaller components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 60 mm in width and 40 mm in height.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, labeled '7', showing a large black rectangular area in the center, likely a solder mask or a component. The board is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with markings from 0 to 100 mm. The background is a blue textured surface.
Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) component, labeled '8', showing various electronic components and a large black rectangular area. The board is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with markings from 0 to 100 mm. The background is a blue textured surface.

Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled '9', positioned on a blue textured surface. The component is rectangular with various electronic components, including several large black integrated circuits (chips) and smaller surface-mount components. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component's width is approximately 40 mm and its height is approximately 25 mm.
Solder Board-Component View 10	 A photograph of a small green printed circuit board (PCB) component, labeled '10', positioned on a blue textured surface. The component is small and rectangular, featuring a few surface-mount components and a connector. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component's width is approximately 20 mm and its height is approximately 10 mm.

Solder Board-Component View 11	 A photograph of a small green printed circuit board (PCB) component, likely a solder board, placed on a blue textured surface. The component has several gold-colored pins and solder points. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with markings from 0 to 100 mm visible.
Antenna View	 A photograph showing the internal components of a mobile phone, specifically the antenna area. The phone is open, revealing the green PCB and various components. Four red boxes with labels identify specific antennas: "WIFI/BT/GPS Antenna" (top left), "LTE RX Ant." (top right), "NFC Antenna" (bottom right), and "GSM/WCDMA/LTE Ant." (bottom left). A black ruler with white markings is placed horizontally below the phone, showing dimensions in millimeters.
