

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On a wooden workbench, there is a spectrum analyzer or similar measurement device connected to various cables. Below the workbench, a power supply unit is visible. To the right, a large, light-colored wooden board is positioned vertically, possibly acting as a shield or part of the test environment.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are lined with white, square-shaped electromagnetic shielding tiles. In the center, a yellow cardboard box sits on a metal stand. The floor is concrete with yellow and black safety markings. A metal frame is visible in the foreground.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
