

[RF EXPOSURE STATEMENT : PDHGMRS122 / TTI TECH CO., LTD.]

- CAUTION! -

IMPORTANT SAFETY INFORMATION

Your wireless hand-held portable transceiver contains a radio frequency transmitter. When the PTT button is pushed, the transmitter sends out RF signals. The device is authorized to operate at a transmit duty factor not exceeding 50% using alkaline "AAA" size batteries to comply with Federal Communications Commissions (FCC) RF exposure safety level guidelines for hand-held wireless devices.

This device has been tested for SAR (SPECIFIC ABSORPTION RATE) and has been found to meet the requirements for body-worn transceiver. If you wear the radio, always use the manufacturer-supplied belt clip. Use of non-manufacturer-approved accessories may exceed the FCC RF exposure guidelines. To maintain compliance with the FCC'S RF exposure guidelines, hold the transceiver at least 1 inch (2.5 centimeters) from your face and speak in a normal voice, with the antenna pointed up and away. Unauthorized antennas, modifications, or attachments could damage the transceiver and may violate FCC regulations.

GMRS License :

Use of GRMS radios within the United States requires a FCC GMRS license. An individual of 18 years of age or older, who is not a representative of a foreign government is eligible to apply for a GMRS system license. You will need two forms from the FCC - FCC FORM 159 and FCC Form 605 Main Form and Schedule F.

You can find the forms online at <http://www.fcc.gov/formpage.html> or call 1-800-418-3676.
