

Technical Description

TX Circuit

- Consist of encoder circuit, R.F. OSC. Circuit Transmit circuit.
- Encoder circuit includes IC-TX2, R3, R14 and C13.
- On/Off switch include S1, S2, S3 and S4.
- R.F. OSC. Circuit includes Q1, Crystal, X1, L1 R2, R4 and C12.
- Transmit circuit include Q2, L1, C10, R16, C8, C9, L3 and L5.
- R.F. OSC. Create signal and then encode through Antenna to transmit.
