

CX2 Fingerprint & RFID Time Attendance

User Guide

Rev: 3 /2023

Before Startina

Hardware Safety Instructions

Observe the following instructions to use the product safely and prevent any risk of injury or property damage.

Do not use oily water or sharp objects to stain or damage the display screen.

Fragile parts are used in the equipment, please avoid operations such as falling. crashing, bending or heavily pressing.

The optimal working environment of CX2 is indoor. The device function fully under temperature: -10°C~50°C (14°F~122°F), The best performance is between: 15°C~32°C (59°F~89.6°F). The device will be less effective if exceeds these ranges.

Please gently wipe the screen and panel with soft materials. Avoid scrubbing with water or detergent.

The recommended power of CX2 terminal is DC 12V ~ 1A. The device will function less effective in case the power supply cable extends too long.

CX2 Time Clock Configuration Guide

Warranty and Disclaimer

Anviz warrants that the hardware will be free from material defects in materials and workmanship and will substantially conform to the applicable Documentation in effect as of the date of manufacture for a period of three (3) years from the date of shipment by Anviz ("Warranty Period"). For more warranty information about this product, please visit www.anviz.com/warranty-policy

Shipping Fees

End Customer is responsible for the shipping fee for sending the product to Anviz, and the return shipping fee for sending the product back to customers is borne by Anviz (paying for one-way shipping). However, if the device is considered as No Fault Found, which means the device works normally, the returning shipment, too, is borne by End Customer (paying for round-trip shipping)

Return Merchandise Authorization ("RMA") Process

Please fill out the Anviz RMA request form online https:// www.anviz.com/form/rma.html and ask technical support engineer for an RMA number. You will receive the RMA confirmation with RMA number in 72 hours, after receiving an RMA number, please send the product in question to Anviz by following the Anviz shipment guide. When the inspection of the product is completed, you receive an RMA report from technical support engineer. Anviz decides to repair or replace parts after user confirmation. When the repair is completed, Anviz notifies user of that and sends the product back to you. An RMA number is valid for two months from the date of its issuance. An RMA number that is more than two months old is null and void, and in such a case, you need to get a new RMA number from Anviz technical support engineer. Products without a registered RMA number will not be repaired. Products shipped without an RMA number may be returned, and Anviz will not be held responsible for any loss or other damage caused by this.

Anviz brand and product are trademarked and protected under law of the United States. Unauthorized use is prohibited. For more information visit www.anviz.com, or email Support@anviz.com for further help. ©2023 Anviz Global Inc. All Rights Reserved. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
