Content

Major Functions

Use Manual×1

Attach the item finder to the item that needs protection (such as keychain, bag, etc.).

1.By using the Apple Find My app, you can find your weTag from your iPhone, iPad, iPod touch, or Mac. Simply open the Apple Find My app, click on the corresponding item, and you will see the location of the item finder. Use the map guide to find it.

2. Even if it is left in a place far away from you, you can also enable the lost mode to lock the location of the item and use the map guide to find it since Apple device are widely used.

3.In addition, if your item finder leaves the range of your Apple device, you will receive an alarm notification. This can help you timely discover the lost items and avoid further losses.

4.Usage and Battery Replacement: The item finder has a built-in CR2032 cell battery, which can usually last for 1 year. Battery replacement is very easy, using a rocker, from the back of the positioner, open the back cover along the back cover gap, a new CR2032 cell battery can be replaced.

Before Connection

Use the item finder, need an Apple device (such as iPhone), turn on the Bluetooth function, in "Settings" - "Apple ID" - enable "Share My Location" in the Find My app.

Explanation of Buttons and Status

1. Turn On

Press the button of the item finder once, and when the finder makes a sound of "Di Didi Didi". Currently, the item finder is turned on successfully and enters the pairing state.

2. SN# check

In the power-on state, double-click the button, and the item finder will make a "been" sound, which can be used to confirm whether the locator is working properly. At this moment, the unique serial number embedded in the locator can also be queried, which can help locate the owner of the item through the Apple Find My app and provide contact information to return the lost item to its rightful owner.

3. Turn Off:

a) Press and hold the button of item finder for 3 seconds, and it will play the confirmation sound "Didi", and then release the button.

b)At this moment, the locator is turned off.

c)After turning off, the item finder cannot be used as a bound device, playing sound, and etc. It cannot protect your things.

4. Restoring the factory settings

a)Click the button 5 times in a row, when the 5th time is pressed. don't release the button, and keep pressing the button for 3 seconds at least, a beeping "Di Dididididi" will be played by buzzer. Release the button after confirming the sound effect (the above operation needs to be completed within 5 seconds).

b)Restoring the item finder to factory settings, please remember

Connect & Bind Devise

2. Open the Find My app

3. click "Add Items"
