

## Declaration

The Broadcom MiniPCI card will only be used in access points.  
Therefore Broadcom applies for a modular approval limited for the use in LAN access points.

The MiniPCI will only be installed by OEM manufacturer and the antennas used will have a maximum gain of 5 dBm.

Each OEM will ensure in his manual that at least 20 cm distance is guaranteed.

The MiniPci cannot be used in laptops without a valid driver for the PC. These drivers are not sold and distributed with the MiniPCI card

Lothar Schmidt

A handwritten signature in black ink, reading 'Lothar Schmidt' in a cursive script.
